December 2015

## Key capacitor manufacturers advance ceramic category

Multilayer types are on the agenda of the few China companies that ventured into the line dominated by foreign players.

Hurdling high technology and cost challenges, major China capacitor suppliers boost initiatives to build up the minority ceramic category as adoption of the component widens in various electronics. They emphasize multilayer chip variants or MLCCs to meet the continuing trend for miniaturization in terminal applications.

Shenzhen Eyang is therefore looking to develop 008004 units, having started mass production of 01005 kinds. At the same time, the manufacturer is increasing output for 0201, which will overtake 0402 units by year-end. The former currently has 40 to 50 percent share from 20 percent in early 2015.

Guangdong Fenghua Advanced Technology Holding Co. Ltd has realized the trial run of 01005 variants. It will concentrate on this and 0201 in the coming year. Releases in 0603 and 0402 currently account for about 70 percent of the maker's yield.

China companies project 0201 and 01005 kinds will displace 0603 and 0402 from the mainstream in 2016, driven by developments in smartphones and wearable electronic devices. Following the lead of major industry players, they will sustain efforts for further product miniaturization. Murata, for instance, has introduced 008004 variants.

Ceramic capacitors are increasingly used for their advantages of enhanced

### Application Watch: Drones

## China makers offer MEMS sensors, BLDC motors, lithium batteries

Drones have become a hot technology over the past two years, and have presented electronic components manufacturers with new opportunities in this nascent but large market. MEMS sensors, brushless DC motors and lithium batteries are at the forefront in this category right now.

MEMS acceleration sensors and gyroscopes are mainly used to ensure steady and safe drone flying, which is why it is important for suppliers to ensure high precision and reliability in

their products. Senodia Technologies (Shanghai), a major MEMS gyroscope maker in China, installed a production line for drones in 2015. It is the only

# Tips to efficiently use your PDF Reader

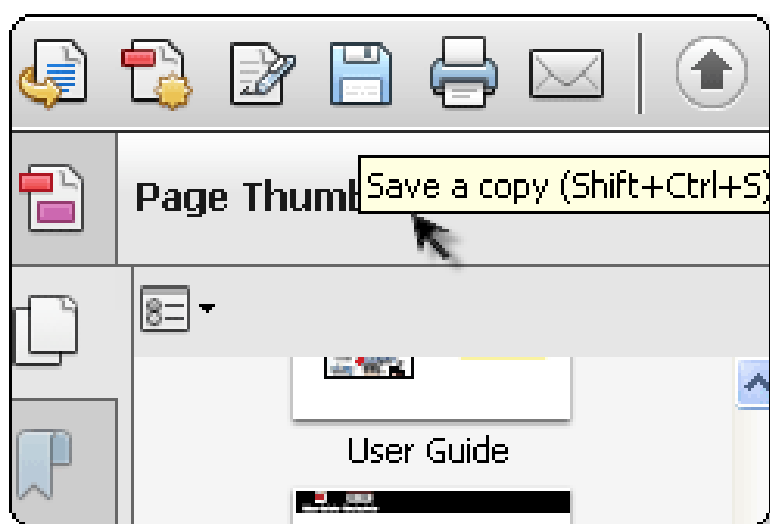

## How to change display options

Click on “View >> Page Display” to customize the way you can view the e-magazine.

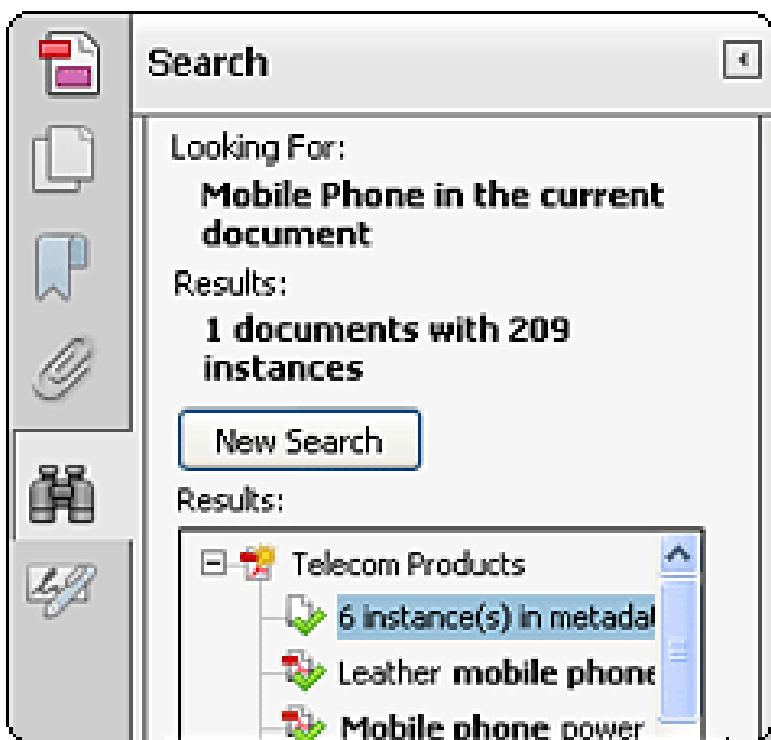

## How to save a PDF

Press “Shift + Ctrl + S” or click on the  “Save” icon. Confirm your save choice by clicking on “Save a blank copy”.

## How to conduct a PDF text search

Press “Shift + Ctrl + F” and type in the keyword(s). If no match found, please broaden your keywords. The search is based on keyword exact match.

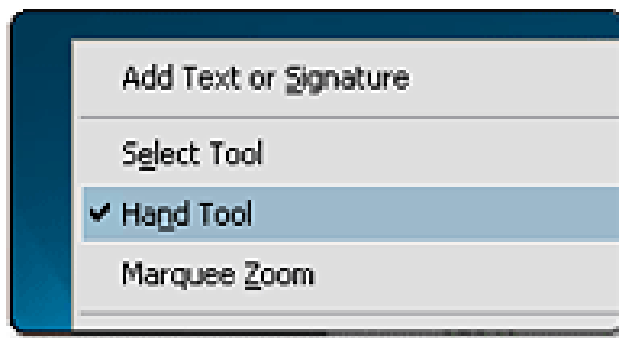

## How to zoom/enlarge and move around a page

Click on either icon   to zoom out of or zoom in on the page.

“Hand Tool” – to help move around an enlarged page.

\* These instructions are based on Adobe Reader. Users of other PDF readers: Check the “Help” function on your PDF reader for page display options. If you’re accessing the PDF online (for example, Chrome, Firefox or IE), enable Adobe Plug-in for better viewing.

We would love to hear your feedback on this e-magazine at [service@globalsources.com](mailto:service@globalsources.com).

# Quality trusted by Samsung, LG, Panasonic, Sharp and Toshiba

We are one of the largest glass diode manufacturers in the world

V-chip capacitors

RFID labels

Looking for a world-class electronic components supplier that places as much emphasis on quality as you do? Then join the likes of Samsung, LG, Panasonic, Sharp, Toshiba, Mitsubishi, Sanyo, Salcomp, Funai, Astec Industries, BYD, Truly Semiconductors, Haier, VTech and Hisense in sourcing from us. These renowned companies recognize that our 20-step inspection process, including high- and low-temperature, humidity and 120-hour life span tests, is one of the most rigorous in the industry.

We carry out this quality regimen at our ISO 9001:2008-, ISO/TS 16949:2009-, ISO 14001:2004-, OHSAS 18001:2007- and IECQ HSPM QC 080000-certified facilities. To provide you with round-the-clock services, we have offices throughout Europe and Asia. Put our 32 years' industry experience to work by contacting us today.

Our monthly capacity includes:

**Diode packages:**

- 1.8 billion DO, LL and LS
- 220 million DO-213AA and DO-213AB

**RFIDs:**

- 3 million HF/UHF dry/wet inlays, labels and tickets

**V-chip capacitors:**

- 30 million standard units with low ESR, 85/105°C operating temperature and 5,000-hour life spans

Testing, marking and tapping machines for glass-molded packages

Reliability testing laboratory

Dumet and CCS assembly machines for glass-molded packages

# Stay ahead of market trends with our RF products

Since 1997, EnterTec Technology has specialized in the development and manufacture of RF connectors and cable assemblies. We offer fast and flexible services to our clients in the RF sector, and have obtained RoHS, REACH, FOS, PFOA, ODS and IMDS approvals for our products. And operations at our production facilities are ISO 9001- and ISO 14001-certified.

Our R&D team can help you stay ahead of market trends by creating the latest RF products for new standards as they appear. And we guarantee that our samples will be delivered faster than other makers'.

Our international sales network extends to the EU, the US, Asia and the Middle East. While we manufacture large volumes for Garmin, Asus and TSMC, we welcome small, mixed orders too. No matter the size of your order, we will process it as soon as we receive your request – competitors often make you wait. Contact us today.

### Online Marketplace

Global Sources online marketplace (GlobalSources.com) integrates the best of online and trade shows while addressing all stages of the sourcing process. Find the right suppliers with more than 12,000 Verified Suppliers and 20,000 exhibitors.

### Exclusive products

60% of products from Verified Suppliers are not found on other websites. Thousands of exhibitors' carefully selected products are online.

### Verified suppliers

Global Sources online has launched three powerful new supplier verification services to help buyers find manufacturers that can be trusted. Reliable suppliers can be verified and checked by simply going online.

### Export-ready suppliers

Global Sources visits each featured supplier personally – three or more times. Each supplier has shown its commitment to export. Our Star Ranking system combines onsite verification with comprehensive business information, so you can shortlist suppliers quickly.

### Global Sources supplier rankings

★★★★★

Suppliers are ranked using a 6-star ranking system. Companies with a higher star ranking provide more business information and verification reports on their Global Sources online homepages. Suppliers rated 5 or 6 stars have a Credit Check report from First Advantage or Sino-Trust and a Supplier Capability Assessment report provided by Bureau Veritas online. The rankings are correct at the time of publication and may be subject to change.

NOTE TO READERS: All prices quoted in this magazine are in US dollars, unless otherwise specified. FOB prices were provided by the companies interviewed only as reference prices at the time of the interview and may have changed. Readers seeking firm quotes on products mentioned in this magazine should contact the manufacturers/traders directly. All product images are provided by the companies interviewed and are for reference purposes only. Those product images featuring products with trademarks, brand names or logos are not intended for sale. Products that are not the specific topics of editorial articles are shown for illustrative and/or demonstrative purposes only. # Source Your Circuit Protective Components from a Reliable Manufacturer

## Surge Protective Device (SPD) for Roadway LED Lighting

- Nominal discharge current (8/20 $\mu$ s): 5-20kA
- Max. discharge current (8/20 $\mu$ s): 10-40kA

## Overcurrent and Surge Protector for LEDs and Adapters

- Overvoltage, overcurrent and over-temperature protection
- Nominal discharge current (8/20 $\mu$ s): 3kA
- Surge (2 ohm combination wave): 4/6kV

## Fast Plug-in SPD for Roadway LED Lighting

- Compliant with IEEE C62.41.2 10kV/10kA requirements
- In: 5kA/10kA, I<sub>max</sub>: 10/15/25kA optional

## Photocontrol with Built-in SPD for Roadway LED Lighting

- Compliant with UL 1449, UL 773, ANSI C136.10, IEC 61643-11 and EN 61643-11 standards
- In: 5kA/10kA, I<sub>max</sub>: 10/15/25kA optional

# Stay informed to stay ahead

**GlobalSources.com/news**

Making informed decisions is critical for the success of your China sourcing business. Global Sources' specialized information hub, **Sourcing News & Advice**, will help you do just that.

On this webpage, you will find a wealth of timely, relevant and actionable intelligence, including:

- ✓ **Next-Gen Insider:** Understand the impact of key industry developments with definitive analyses by Global Sources Market Analysts.
- ✓ **Smart Sourcing:** Source more effectively with insights from leading sourcing experts.
- ✓ **Analyst's Choice:** Increase your profits by being the first to source the latest products hand-picked by Global Sources Editors.
- ✓ **Product News:** Beat the competition by staying up-to-date with the top trends shaping the products you source.
- ✓ And much more....

# Specializing in UL-marked M8 and M12 connector systems for various industrial applications

Our products include:

- Telecom Connector
- RJ jacks
- Keystone Connectors
- IDC connectors
- USB/Mini USB Connectors
- USB/Micro USB 3.0 connector
- Waterproof connectors
- M12/M8 Circular connectors
- RF Antenna & microwave cables connector
- Wi-Fi, WiMAX, GPS, GSM, DVB-T, Insert and Outdoor Antenna
- European socket
- Auto Components
- Pin header connectors
- Stamping & plastic injection parts
- Optic grinding & machining parts

- \$45 million in goods exported to the US, Europe and Asia yearly
  - Taiwan R&D team holds patents in the US and Germany
  - Operating 4 factories in Taiwan and mainland China
  - Each facility has a monthly capacity of 30 million units
  - Every factory is run by Taiwan-trained management
  - All of our components are RoHS-compliant
- Contact us today.

# Expert OEM/ODM of advanced cosmetic and other equipment

If you're looking for a leading provider of advanced OEM/ODM medical and cosmetic devices, then look no further. We are one of the world's leading manufacturers of electronic cosmetic devices with the latest biochemical technology. Our series of advanced equipment includes portable oxygen generators, and ultrasonic, laser, negative pressure and RF slimming equipment. What's more, we also utilize our GMPC-certified 100,000 class dust-free workshop, ensuring all of our cosmetics extraction, packing and biochemical laboratory test procedures are conducted in a controlled environment. And for your added assurance, our factory is also registered in the U.S. Food & Drug Administration.

Our other advantages include:

- Over 15 years' OEM/ODM experience
- ISO 9001:2008, ISO 14001:2004 and ISO 13485:2003 certifications
- An over 40,000m<sup>2</sup> factory housing state-of-the-art CNC processing, plastic injection, SMT, DIP, assembly, painting, screen printing, pad printing, gold stamping and packing machines
- More than 100 R&D team members
- Patented items with RoHS, CE, FCC and REACH marks
- Fast customer service with offices in Beijing, Hong Kong, Taiwan, Japan and Singapore

# Quality trusted by Samsung, Huawei, Dell, TCL and Great Wall

High-density multilayer PCB  
• 10 layers  
• Customizable layer count

Smartphone PCB

6-layer gold-plated PCB

## Serving big buyers worldwide

In our over 22 years' industry know-how, we've developed into a PCB supplier trusted by well-known clients from all over the world. Samsung, Asus, Dell, Mini Circuits, Foxconn, Huawei, ZTE, Funai, TCL, Gionee, Shanghai Huaqin, Konka, Gree, Great Wall, Hasee, BBK and Alpha Technology come to us for our high-quality items. Our strong industry foothold is supported by three production hubs in Shenzhen, Dongguan and Meizhou, and branch offices in Hong Kong, Shanghai and Chengdu to serve our clients better.

## Strong production capability

Our factories have dedicated groups that facilitate efficient production. In Shenzhen, we have double-sided, multilayer, and special quick-turn PCB divisions that can make 70,000m<sup>2</sup> of PCBs per month. The plant specializes in multilayer variants with high frequencies. Copper-, aluminum-, iron- and ceramic-based boards are also produced in this facility.

Our Dongguan facility focuses on multilayer HDI and flexible PCBs and can roll out up to 150,000m<sup>2</sup> of products monthly. Lastly, the 50,000m<sup>2</sup> industrial park in Meizhou turns out 160,000m<sup>2</sup> of

multilayer HDI, carbon oil and silver-plated through-hole PCBs per month. PCBs for mobile phones and computers are also manufactured.

## Quality prioritized

We've earned the trust of major industry players by manufacturing no less than top-grade products with BSI and UL marks. Furthermore, Samsung Mobile awarded us distinction for quality. We also hold an invention patent and ISO 14001:2004, ISO 9001:2008 and ISO/TS 16949:2009 certifications. Become one of our satisfied clients by calling us today.

# Over 10 years' experience in the automotive electronics industry

**ECKOM is one of the leading TPMS brands in mainland China**

## Producing 500,000 sets monthly

For 14 years, we've been concentrating on the production and sales of automotive electronics. After years of development, we now have the ability to produce 500,000 sets monthly and build up our own ECKOM brand, which is now one of the leading brands of TPMS in mainland China.

## Meeting international standards

We satisfy the demands of our clients from all over the world, backed by our 1,600m<sup>2</sup> ISO 9001:2008-certified facility with two SMT machines and by experienced workers. Products rolling out from our manufacturing plant in Dongguan are fit to bear CE, RoHS and FCC

marks, ensuring easy entry in foreign markets such as Europe.

## Experienced engineers tend to your needs

To stay on top of the ever-changing buyer demands, and to supply you with fresh designs on a regular basis, we have an R&D center manned by 15 engineers averaging 10 years' experience. These designers are also experts in handling OEM and ODM projects.

## We welcome your inquiries

Experience our culture of innovation and efficient customer service by contacting us today. Visit us at Global Sources Online to learn more about our products.

Hall-effect current sensors

## Samples in 20 days or less

With 29 years of experience, we're one of the key mainland China enterprises producing magnetic components. We have more than 30 R&D engineers, half of whom have over 30 years of field experience. New products are skillfully developed according to buyers' specifications and market trends in our own sample making and molding workshops. Samples requiring new molds take 20 days, and without molds, 10 days.

## Up to 300 million units produced each year

Our five ISO 9001:2000-certified factories produce ferrite cores, inductors, high-frequency transformers, network filter modules

and permanent ferrite magnets. Every year, we make up to 300 million units for personal computers, computer peripherals, automotive electronics, consumer electronics, telecommunication equipment, test equipment, GPS equipment, medical appliances and cellular phones.

## Response within 24 hours

Twenty customer service representatives are ready to reply to your inquiries within 24 hours, and offer efficient aftersales and technical support. To learn more, visit our Global Sources Online showroom and then discuss your order with us today.

# Fortune 500 companies

Brushless motors

AC motors

74,000m<sup>2</sup> industrial park in Dongguan

Factory 1: 15,000m<sup>2</sup>

Factory 2: 2,000m<sup>2</sup>

# source our range of motors

Featuring over 200 different types of motors, our selection won't let you down. The fact that Fortune 500 electronics companies choose from our range indicates that you, too, will likely find a model that matches your application. And in the rare chance that you don't, we'll custom-build one for you. Our lineup includes:

- AC universal motors: mainly used in kitchen appliances such as food processors, blenders, juicers and choppers
- PM DC motors: widely used in cars, instruments, medical equipment, health care products and water pumps
- Geared motors: used in automatic equipment, instruments, office devices and vending machines
- Brushless motors: used in instruments, precise controllers, power tools and office equipment
- Shaded pole motors: used in cooling systems, medical equipment and air fresheners
- Pump motors: used in water pumps
- Automotive motors: used in automotive parts

When it comes to volume production, we're a major player as well. Each month, we turn out 3 million units, all of which are compliant with the RoHS Directive and carry UL and CE marks for easy distribution in the US and Europe. Regardless of whether you're a volume buyer or a start-up company, we'll offer all these services to you. To join our list of satisfied clients in the US, Europe, Asia and South America, call us today.

## Just 90 days from concept to finished product

### Integrated manufacturing process

Established in 2001, we are a recognized industry leader that offers an extensive selection for your power supply needs. In fact, led by our international management team, we handle hundreds of projects every year, particularly from buyers in North America and Europe. And if you place an order today, we can have your products shipped in only 14 days, thanks to a vertically integrated manufacturing process that yields up to 500,000 units daily.

### In-house chemical testing facility and TÜV-approved EMC lab

We run a stringent QC process utilizing our in-house material testing facility and EMC laboratory, as well as a suite of advanced machines. Our range of tests includes: electrical, hi-pot, vibration, salt-spray, bending, plug and unplug, high- and low-temperature, surge, combustion and drop tests. And for added assurance, you can trust in our:

- In-house TÜV-approved EMC lab
- In-house PAHs-free and REACH compliance chemical testing lab
- ISO 9001:2000, ISO 14001:2004 and IECQ HSPM QC 080000 management certifications
- CEC Level V product compliance and VDE certification

### Follow your orders in real time

We are an expert when it comes to SCM services, and also offer VMI services. In fact, our clients have the ability to control the distribution and inventory of their power supplies, LED drivers and adapters in real time.

To discuss your concept with our vice president of sales and marketing, Peter Liu, call (86-755) 2716 0058 today.

Workshop

# Manufacturer of power suppliers

#### 4W AC/DC switching power supplies

- Input: 100-240V AC, 47-63Hz
- Output: 3-24V DC, 1A
- Certifications: UL, GS, PSE, IEC, EMC and FCC
- Compact, lightweight and energy-efficient

- Over 20 years' experience in manufacturing switching power supplies, adapters and transformers
- ISO 9001:2008- and ISO 14001:2004-certified
- Our 45 qualified QC staff utilize advanced testing equipment for 41 inspection checks
- Strong 58-member R&D team for OEM /ODM orders; focused on cost reduction and new designs
- All items are RoHS-, UL-, CE-, CUL-, GS-, CE-, PSE-, SAA- and FCC-marked and ship in eco-friendly packaging

- Items for healthcare and security equipment, computer peripherals, charging devices and more
- In-house lab with SMD machines to improve production efficiency
- Exporting to Malaysia, Australia, the US, Britain, Hungary, Lithuania and other countries
- Monthly capacity of 2 million units; annual sales turnover of \$150 million

# for various applications

24W DC line series switching power supplies  
 • Input: 100-240V AC, 47-63Hz • Output: 5V DC, 3.1A  
 • Operating temperature: 0-40° • Operating humidity: 10-90% RH  
 • Short-circuit and over-current protection • UL, GS, SAA and BS marks  
 • Applications: audio devices, printers, scanners, monitors, etc.  
 • Weight :110g (reference weight) • Size : 69.7 x 44.4 x 29.8mm

Linear adapter  
 • Input: 120, 220 and 230V AC available  
 • Output: 3-24V DC • Current: 0.1-1.67A  
 • Ideal for home appliances, IT devices, water purifying systems, lighting and toys

Switching power supply  
 • Input: 100-240V AC • Output: 3-24V DC, 0.5-48W  
 • Ideal for A/V equipment, toys and IT devices

30W power supply with interchangeable plugs for various countries  
 • Input: 100-240V AC, 47-63Hz • Output: 5-24V DC • Current: 0.1-4A

Our 16,000m<sup>2</sup> factory, with 800 production staff members

## Buyer's Guide

VRLA batteries: Key trends, industry outlook, gallery view

# Makers sustain VRLA battery production for low-speed EVs

Companies leverage broad adoption in electric bikes, motorcycles, scooters, wheelchairs, forklifts and special-purpose vehicles such as golf carts.

China VRLA battery manufacturers continue to capitalize on the product's strong application bases in the transportation, telecom, electric power, medical, industrial, aviation and navigation fields despite lithium rival's steady rise. They are optimistic about the growing electric vehicle sector, in particular, which is now a key market accounting for 25 to 30 percent of sales for the line worldwide.

Electric bikes are the major demand

driver in the EV segment, accounting for more than 80 percent of VRLA battery global yield. Nearly all adopt the chemistry. With this application's rising market, more opportunities are in store for upstream suppliers. By 2023, the worldwide sales of such bicycles will hit 40.3 million units from 31.7 million in 2014, according to Navigant Research. That of electric motorcycles and scooters is also in an upturn, with the total reaching almost 6 million units

by 2024 from 5.3 million in 2015.

As such, China makers concentrate on low-speed EVs such as bicycles, motorcycles and scooters, and special-purpose types including golf carts, cars for sightseeing, forklifts and wheelchairs. They allot a large portion of their output to this automotive segment. The share is about 50 percent at Jiangxi Jingjiu Power Science & Technology Co. Ltd, a third at Shenzhen Sunnyway Battery Tech Co. Ltd, and

approximately 20 percent at Bosfa Industrial Battery Co. Ltd.

To boost competitiveness, suppliers press on with product initiatives, with the release of more gel units still being actively pursued to complement their semigel and AGM selections. A number have added tubular batteries, which adopt tubular positive plates and have a design life of 15 to 20 years. Subtypes such as OPzV and OPzS respectively

# A complete range of power supply solutions to meet your needs

Featuring medical power supplies that meet IEC 60601-1 3rd edition

With global energy usage on the increase, it makes sense to create products that are more efficient and have less impact on our planet. We offer medical power supplies that meet IEC 60601-1 3rd edition requirements. These items are available in 4- to 650-watt versions, as well as in wall-mount, open-frame and enclosed types in order to meet your needs.

You can also source DC/DC converters, open frame, enclosed and DIN rail-style, and IT-grade switching power supplies from us. Our quality products are made in ISO 9001:2008-certified facilities. We currently manufacture thousands of different items that ship with comprehensive certifications to ensure their stability. For large and small orders, inquiry responses within 24 hours and premium aftersales services, contact us now.

Our major product lines:

- 4-650W medical power supplies
- 5-3,000W IT and industrial power supplies
- 10-1,000W battery chargers
- 1-1,000W DC/DC converters

Medical power adapters

Wall-mount adapters

Open-frame power supply

Battery charger

Universal interchangeable adapter, meets UL and EN 60950-1 standards

## Power supply expert

Founded in 2008, Zhongshan Kingrong is engaged in the manufacture and export of switching, linear and LED power supplies and chargers. These products carry GS, UL, cUL, PSE, SAA, CE, CCC, KC, BS, ETL, CB, EMC and FCC marks. We have over 30,000 switching power supply models with 3-120W power and more than 200 LED power supply models with 3-360W power. All these items are made according to IEC/EN 60950, IEC/EN 60065, IEC/EN 60335, IEC/EN61558, UL1310 and IEC/EN61347 standards.

## Monthly production of 600,000 units

Our factory covers an area of 20,000m<sup>2</sup> with one assembly workshop. More than 500 skilled and diligent workers help us turn out 600,000 units monthly. We have an R&D team devoted to making new and creative designs, and our strict QC management system ensures 100 percent product testing nine times by our 10 production lines before shipping.

## Our clients benefit from:

- ErP- and CEC Level VI-compliant adapters
- Products that meet the standards of 7 countries for 6/12/24/36/65W wall and desktop units, and comply with CB requirements
- R&D engineers with over 30 years' experience
- Over 10 years' power supply solution experience
- Up to 50,000 units daily
- 7-day sample lead times
- Customization and OEM services available

We welcome your inquiries. For more information, contact us today.

# Buyer's Guide

## Makers sustain VRLA battery production for low-speed EVs

» [continued from page 34](#)

categorized under gel and AGM are available in China.

Jiangxi Jingjiu's range for EVs includes tubular kinds with 140, 150 and 180Ah capacity and 12V nominal voltage. Between 70 and 80 percent of Shenzhen Sunnyway's VRLA models for

EVs are tubular variants.

Gel batteries remain in the high end, priced 40 percent more than AGM models. Because of this, less-expensive semigel alternatives continue to dominate China's output of gel units, with share of about 80 percent. These surpass traditional AGM kinds in terms of reliability but the difference in rates is about 5 percent only.

Globally, VRLA types make up more than 60 percent of the secondary batteries market, owing to enhanced capacity, power and reliability. Their cost-performance ratio is also a key advantage as Li-ion releases have quotes more than two times that of the former.

So despite the increasing share of Li-ion variants in various applications, which dented local production in January to August 2015, the overall outlook in coming years is positive. Yield in the year's first eight months reached 81.4 million kVAh, 7 percent lower than the same period in 2014.

In 2018, China's output will hit 271.8

million kVAh, with about 5 percent CAGR in 2014-18, as forecast by the Lead-Acid Storage Battery Branch of the China Electrical Equipment Industrial Association.

China is the world's manufacturing center for VRLA batteries, churning out 45 percent of the total. Its volume in 2014 was 220.7 million kVAh, climbing nearly 5 percent from 2013.

About 300 suppliers constitute the line there. They are mainly based in the provinces of Zhejiang, Hebei, Jiangsu, Hubei and Anhui. The first three account for 27, 12.4 and 12.1 percent of aggregate local production.

### Semigel-led lineup for EVs

China's selection of semigel and AGM VRLA batteries for electric vehicles comes in 5 to more than 1,000Ah capacity, and 2, 6, 8, 12, 16 and 18V nominal voltage. The former type leads supply.

Mainstream models for electric bikes are in 5 to 48Ah and 6, 12 and 16V, and those for golf carts, cars used for

sightseeing and forklifts in 24 to above 1,000Ah and 6, 8, 12 and 16V.

Companies also offer 2V varieties with custom capacity and voltage ratings.

The main materials and components in VRLA battery manufacture include lead, vitriol, plastic and separators, and all are sourced from local providers. Makers such as Shenzhen Power Kingdom Co. Ltd, Shenzhen Sunnyway and Jiangxi Jingjiu produce battery plates in-house. The third makes the plastic containers as well, while Shenzhen Power Kingdom uses lead inputs from its parent company Henan Yuguang Gold & Lead.

Lead and its compounds account for over 70 percent of total outlay. These come mainly from Guangdong, Fujian and Yunnan. Current cost is \$1,900 per ton and will climb to \$2,200 in 2016, according to BNP Paribas.

Even so, battery prices will remain unchanged due to intense competition in the line. □

■ [Gallery view, page 42](#)

Shenzhen Power Kingdom's model PS18-12 VRLA battery has 18Ah rated capacity. It is UL-listed and CE-approved.

## Our Li-ion batteries for sports equipment have 0.1% return rates

- 200 technicians carry out 10 QC checks
- 80 engineers design up to 3 new models monthly
- Daily capacity exceeding 3 million units
- ISO 9001:2008- and ISO 14001:2008-certified factory with equipment from the US and Japan

To see why they do so, contact us today.

A selection of VRLA batteries for EVs from China

### 12Ah-rated VRLA battery

Bosfa Industrial Battery Co. Ltd

★★★★☆☆

Bosfa's model EVX12-12 VRLA battery has 12Ah rated capacity, which suits electric vehicles, wheelchairs, medical equipment, UPS, control systems, power tools and toys. The 12V unit with F2 terminals measures 151x98x95mm and weighs 4.2kg. It is priced at \$14.39. The minimum order is 500 units for delivery within 25 days.

[CONTACT SUPPLIER](#)

### 20Ah VRLA battery meets CE, UL

Jiangxi Jingjiu Power Science & Technology Co. Ltd

★★★★☆☆

The 12V20AH model from Jiangxi Jingjiu is a 12V VRLA battery with nominal capacity of 20Ah. Its applications include electric bikes, golf carts, scooters, ride-on toys, wheelchairs, sprayers, lawnmowers, forklifts, and portable TVs and video equipment. The 7±0.1kg battery meets CE and UL requirements. The minimum order is 200 units, and the delivery lead time 3 days.

[CONTACT SUPPLIER](#)

### 12V VRLA battery provides 18Ah

Shenzhen Power Kingdom Co. Ltd

Shenzhen Power Kingdom offers model PS18-12, a 12V VRLA battery with 18Ah rated capacity. The unit has T3 or T10 terminals. It measures 181x77x167mm and weighs 5.2kg. Price is \$16.

The minimum order requirement for this CE-approved and UL-listed battery is 500 units, which are delivered within 30 days.

[CONTACT SUPPLIER](#)

### VRLA battery offers 200Ah

Shenzhen Sunnyway Battery Tech Co. Ltd

★★★★☆☆

The model SW122000E VRLA battery from Shenzhen Sunnyway features 200Ah rated capacity measured in 10-hour rate. It has 12V nominal voltage. The unit with T11 or T19 terminals is 522x240x216mm and weighs 66kg. It conforms to CE, IEC, GB, JIS and UL guidelines. The minimum order is 50 units and the delivery lead time 20 days.

# Our products comply with ErP Level II and CEC Level VI requirements

Our products comply with ErP Level II and CEC Level VI requirements. This means easier market entry into Europe and North America. So for hassle-free importation, choose from our selection of AC/DC and AC/AC adapters, linear adapters, LED drivers, transformers and switching power supplies. We have over 5,000 models available and can handle custom projects.

Leading electronics companies have been sourcing from us for years. Our ISO 9001:2008- and ISO 14001:2004-certified factory is equipped with tooling and prototyping systems, automatic insertion machines, SMT machines and plastic injection machines to ensure fast completion of your custom samples. We purchase key components from the EU and the US for quality. Send us an e-mail today.

## Our products meet DoE, ErP Stage 2, NRCan and MEPS energy-efficiency directives

Founded in 2001, we — Adapter Technology — have become a promising and growing enterprise in the power supply manufacturing industry. We offer a wide range of power supply solutions, including AC/DC and DC/DC adapters, medical grade switching power adapters, open-frame power supplies, LED driver models and more. All of these items meet Department of Energy (US), ErP Stage 2, Natural Resources Canada and MEPS energy-efficiency requirements.

For quality assurance, all of our products are 100 percent burn-in tested and inspected with automatic test equipment (ATE) in our ISO 9001:2008- and ISO 14001:2004-certified factory. Contact us today.

# Come to us for eco-friendly, energy-saving batteries

**Our units last longer and boast higher capacities than the industry average**

The featured lithium button-cell batteries are perfect for powering a variety of devices, including 3-D glasses and remote controls. And since they boast higher capacities and longer life spans than many other units on the market, they are better for the environment as well. Our CR2032 cells, for instance, have a capacity of 245mAh – that's up to 5 percent higher than similar CR2032 cells from Japan.

Each item is manufactured at our 9,000m<sup>2</sup> ISO 9001:2008- and ISO 14001:2004-certified factory, where we turn out up to 25 million units monthly. Plus, our products meet UL 1642, UN 38.3, CE, JISC 8512 and IEC standards, as well as comply with RoHS Directive, Directive 2006/66/EC and REACH requirements. We are also an authorized distributor of Toshiba batteries.

To ensure quality, we conduct evaluations using precision equipment from the US, Switzerland and Taiwan. For more information regarding our batteries and to place an order, contact us now.

# Battery holders and snaps from a 43-year maker

Our unique battery snaps feature terminal crimping, rather than traditional soldering, for increased strength. And our safety battery snaps and holders have insulated contacts and extra polarity protection that conventional models don't offer. Features like these have kept leading multinationals such as Mouser and IR coming back for the past 43 years.

Demands for quality are met by utilizing Komax 40 automated cutting, stripping and crimping machinery. This equipment can simultaneously crimp terminals and cut lead wires, ensuring precision contacts and secure connections in every component. We also have a monthly capacity of 6 million units, so we can deliver your products within 25 days of order confirmation. For free samples of our RoHS Directive-compliant holders and snaps, call or e-mail us now.

# Buyer Demand Trends

Online buyer and supplier activity in the featured product group on GlobalSources.com

## Batteries & accessories

Buyer demand trends are taken from buyer and supplier activity in the featured product group on GlobalSources.com in the month preceding publication of this magazine.

- **Buyer requests** track total inquiries from our independently verified worldwide community of more than 1 million buyers.
- **Product profiles** represent the total number of unique products available from export-ready suppliers in our easily searchable catalogs.
- **New product postings** indicate the number of new product profiles added to our website by suppliers during the period.

For these and thousands of other categories, visit Global Sources online and sign up for Product Alerts to receive the latest supplier postings. Use the website's Product Search function to find hundreds of products and send inquiries directly to verified exporters.

# A complete range of WLAN antennas and accessories

## Product Range:

- WLAN antennas • Coaxial cables

With designers in the US and Taiwan, and facilities in mainland China, we maintain close contact with our clients. And we also have opened sales offices in Singapore and South Korea to efficiently cater to buyers in these markets. Source your WLAN antennas, RF connector and cable assemblies and other items from us — we offer flexible minimum order quantities that you are sure to appreciate.

Additional reasons to source from us are our reduced development times, six-month guarantees and more flexible end-product configurations. All production processes take place at our low-cost ISO 9001:2000- and ISO 14001:2004-compliant factory in mainland China. We also maintain defect rates of only 0.001 percent, and repeat order rates of 100 percent.

Through preferred-buyer relationships with local suppliers from major supply hubs, we obtain RoHS Directive-compliant raw materials faster and more affordably — ensuring competitive prices and the fastest delivery of your orders possible. And we're expanding into South America and Europe, so buyers there can enjoy the same benefits. For samples within two weeks, talk to us today.

Custom-made coaxial cable

RF cable, available in 1.37, 1.13 and 0.81mm

RF connectors and cable assemblies

# High-quality magnets from a Sony Green Partner

- We're ISO/TS 16949:2009-, ISO 14001:2004- and QC 080000-certified
- Up to 1,200 tons of ferrite magnets, 150 tons of neodymium magnets and 30 tons of alnico magnets monthly
- All items are RoHS-marked for easy distribution in eco-conscious markets
- Our magnets are mainly used for speakers, wind power devices, motors, electronics and auto parts

For more information, inquire today.

Our selection includes:

- Neodymium magnets
- Ferrite magnets
- Alnico magnets

# Application Watch: Drones

## China makers offer MEMS sensors, BLDC motors, lithium...

» [continued from cover](#)

company to cater to local consumers and businesses at present.

Other kinds of sensors may also see climbing demand in the drone industry over the next several years, including GPS, laser and ultrasonic sensors.

Brushless DC motors used in drones must be small, lightweight, and have a long battery life and high level of efficiency and reliability. With this in mind, China manufacturers make certain their products meet industry standards, including GB/T21418-2008 and JBT10690-2007, especially for industrial drones. Shenzhen Feijun Electrical Motor Co. Ltd released units for drones in the past two years. One such model, the F8L, has 1,500 to 3,400rpm, 1.2 to 9.5kg thrust and 10 to 14g/W efficiency. It is rated at 22.2 to 48V, 2 to 32A and 62 to 1,440W.

## Global drones market to grow fast

Statistics from the Beijing Haiying Information Research Institute show the worldwide drone market reaching total sales of up to \$39.1 billion within the next decade. The industry in China will also rise rapidly, with aggregate market value hitting \$7.9 billion within the same period, according to the National Business Daily.

At present, drones are widely used in agriculture, rescue, aerial photography and meteorology. New applications for these unmanned aerial vehicles have been emerging in recent years. They include express delivery.

China drone makers are optimistic about the future of the market, both locally and abroad.

To be competitive, lithium batteries for drones need to be light but with a large capacity. Li-polymer types are currently regarded as the best choice because they meet requirements for great density and reliability, and light weight and thin profile at a relatively low price.

Dongguan Jifei has presented 000051 units for the DJI phantom series

DJI Technology, the largest drone supplier in the world, is projected to achieve total sales surpassing \$1 billion in 2015, doubling from the previous year. The company is expected to maintain its high growth over the next two years given increasing demand.

This will present a huge application base for components suppliers in the country.

### China makers occupy line

DJI is now widely recognized as the biggest consumer drone supplier, accounting for as much as 70 percent of the global market.

More manufacturers such as Ehang and Xaircraft

have entered the sector and witnessed explosive growth in the past two years.

In order to boost price and performance advantage, the majority of drone suppliers source their raw materials from domestic providers.

Decades of development have produced a comprehensive supply chain for the electronics industry in China. High-quality sensors, brushless motors, batteries and other components, and raw materials can be easily acquired at reasonable prices in the country, benefiting local drone manufacturers. It is expected that foreign players may also soon obtain their manufacturing inputs from China to help lower costs. □

drones. The 11.1V products with JST-XH charge balance and XT60 discharge plugs provide 2,600mAh capacity. They measure 105x34x26mm and weigh 185g.

Local manufacturers make up more than two-thirds of the industry, and foreign-invested businesses the rest. The former has been able to capture the majority of the market by offering

a better price-to-performance ratio.

It is expected that components makers in the country will pay more attention to drones for years to come.

The primary production areas for this market are along the coast in the Pearl River and Yangtze River Delta regions. Guangdong province is the largest manufacturing area,

## Application Watch

### China makers offer MEMS sensors, BLDC motors, lithium...

» continued from page 80

playing host to over 70 percent of the suppliers. Shenzhen, one of two first-tier cities there, is a key location, being a major production hub for smartphones and model planes, and offers a supply chain for drones. Other incentives for manufacturers include the area's abundant labor force and beneficial public policies.

**MEMS sensors:** All drones require MEMS acceleration sensors and a MEMS gyroscope for stable flying. The gyroscope offered by Senodia for drones has a high-performance silicon micro machine sensor with signal conditioning circuitry, and enhanced resolution and temperature stability. It operates in -20 to 85 C.

**Brushless DC motors:** Brushless DC motors used in drones need to support 1,000 to 1,200-hour operation. Such units have 22V rated voltage and 0.5A to 1A no-load current. They weigh

between 100 and 300g. High stability and reliability indicate the R&D trend for local makers.

**Li-polymer batteries:** Li-polymer batteries used in drones demand capacity exceeding 10,000mAh. These have a 22V rated voltage and 25C continuous discharge rate, and last more than 500 cycles. Most manufacturers of this battery type have ensured their products meet RoHS requirements.

Citing gyroscopes as an example, the key materials and components include gyro wheels, cases, torque motors and signal sensors. In brushless DC motors, these are stators, rotators, position sensors and cases. Cathodes, anode materials, electrolytes and insulation are the counterparts in Li-polymer battery production.

All manufacturing inputs come from local sources. Some suppliers also use imported versions on request.

Material and component costs and product prices have generally been stable, a trend expected to last through the coming year. □

## Microswitch lasts 100,000 cycles at rated load

Guangdong Zhongnan Electronic & Electric Co. Ltd

★★★★☆

Guangdong Zhongnan's SPDT microswitch is rated at 250VAC, 16A. It has 15Mohm maximum initial contact and 100Mohm minimum insulation resistance. The allowed operating speed is 0.2 to 1mm/sec. The unit has an electrical life span of 100,000 cycles at rated load, and a mechanical life span of 10 million operations.

### Product details

Model	VP531A-3FR
Launched/upgraded	April 2015
MOQ	1,000 units
Lead time	30 days
Certifications	CSA, UL, VDE

### Supplier profile

Year established	1992
Annual sales	\$10 million
Certifications	ISO 9001

CONTACT SUPPLIER

## Cooling fan for high-heat applications

Shenzhen Hichong Technology Co. Ltd

Shenzhen Hichong's cooling fan adopts a ball instead of a sleeve bearing to suit high-density applications generating higher temperatures. It has 3,200rpm speed and 45cfm airflow. The noise level is 33dB.

The 77g model runs on 12V and 0.145A, and consumes 1.7W.

### Product details

Model	ME80251V1-000C-A99
Launched/upgraded	July 2015
MOQ	200 units
Certifications	CE, RoHS, TÜV, UL

### Supplier profile

Year established	1980
Export markets	Asia (50%), Europe (30%), US (20%)
Total staff	4,000
Certifications	ISO 9001, 14001

## New from Exhibitors

New products from exhibitors at the Global Sources Electronics show

### Subminiature fuse has 130A breaking capacity

Suzhou Walter Electronic Co. Ltd

Suzhou Walter offers this subminiature fuse with 130A breaking capacity and 250 or 300V rated voltage.

The 8.5x8.5x4mm unit has tinned-copper leads and a UL94V-0-rated thermoplastic body. It operates in -55 to 125 C.

#### Product details

Model	2010
Launched/upgraded	January 2015
MOQ	50,000 units
Lead time	14 days
Certifications	CCC, cUL, KC, PSE, SEMKO, VDE

#### Supplier profile

Year established	1968
Export markets	Eastern Europe
Annual sales	\$20 million to \$25 million

### Microspeaker for automotive applications

Changzhou Cxsound Electronic Co. Ltd

★★★★☆☆

This automotive-use microspeaker from Changzhou Cxsound has 1W rated and 2W maximum input power, and 300Hz to 10kHz frequency range. The average sound pressure level is 97±3dB at 0.1W and 100cm.

The unit has 8ohm±15 percent rated impedance. Its diameter is 50mm.

#### Product details

Model	CX550-7E
Launched/upgraded	March 2015
Lead time	10 days

#### Supplier profile

Year established	2006
Export markets	Europe, US, Asia
Export products	Microspeakers, buzzers
Annual sales	\$19 million

## 30 years of experience customizing DC motors

Our three decades of experience makes us experts when it comes to customizing motors. We have executed more than 10 OEM projects over the last two years. Our motors are widely used in remote-controlled cars, door lock systems, precision electronic items and power generators.

All materials comply with the RoHS Directive, and most are imported from Japan. We have production facilities in Hong Kong and mainland China, with each process monitored by our senior technicians to ensure your requirements are fully met. Call us now to discuss your motor needs.

## 3 Million Units Monthly

Custom micro DC motors

We supply buyers in Europe, the US and Southeast Asia with motors and other electronic components. Our buyers keep ordering from us because of our 3 million-unit monthly capacity. This volume production allows us to fill your large orders. To enjoy the benefits of volume sourcing, call us today.

### Source DC and geared motors from us to benefit from:

- Motors with low noise and high torque
- Efficient ISO 9001:2000- and ISO/TS 16949:2002-certified production
- Delivery lead time of 7-15 days
- Team of 60 skilled engineers
- Motor designs finished in one day
- Minimum order quantity of 300 units

Geared motors

## New from Exhibitors

### Wiegand-effect magnetic sensor

Nanjing AH Electronic Science & Technology Co. Ltd

★★★★☆☆

This Wiegand-effect magnetic sensor from Nanjing AH has 10kHz maximum operating frequency. It runs without an external power supply. The unit has 5 to 20mT magnetic excitation strength. Its pulse width and signal amplitude are 10 to 30μs and ≥30V. The component operates in -20 to 85 C.

#### Product details

Model	WG622
Launched/upgraded	January 2015
MOQ	50 units
Lead time	150 days

#### Supplier profile

Year established	2003
Export markets	Western Europe, North America, Asia
Annual sales	\$5 million
Certifications	ISO 9001, 14001

CONTACT SUPPLIER

### Mini push-button switch has locking feature

Dongguan Jinbaoli Electronic Co. Ltd

★★★★☆☆

This right-angle push-button switch from Dongguan Jinbaoli features a locking mechanism. It measures 5.8x5.8mm.

The miniature model has 50mohm maximum contact and 100Mohm minimum insulation resistance. It is rated at 50VDC, 0.5A. The life span is 30,000 cycles.

#### Product details

Model	PB-22E62
Launched/upgraded	April 2015
MOQ	3,000 units
Lead time	10 days

#### Supplier profile

Year established	2006
Export markets	North America, Eastern Europe, Middle East
Annual sales	\$1 million
Certifications	ISO 9001:2008, 14001:2004

# Buyer Demand Trends

Online buyer and supplier activity in the featured product group on GlobalSources.com

## Circuit & heat protection components

Buyer demand trends are taken from buyer and supplier activity in the featured product group on GlobalSources.com in the month preceding publication of this magazine.

- **Buyer requests** track total inquiries from our independently verified worldwide community of more than 1 million buyers.
- **Product profiles** represent the total number of unique products available from export-ready suppliers in our easily searchable catalogs.
- **New product postings** indicate the number of new product profiles added to our website by suppliers during the period.

For these and thousands of other categories, visit Global Sources online and sign up for Product Alerts to receive the latest supplier postings. Use the website's Product Search function to find hundreds of products and send inquiries directly to verified exporters.

### Top buyer requests

# Easily source components from well-known American, European, Japanese, Korean and Taiwanese brands

## And from our huge stock of SMD tantalum capacitors

Every product we offer comes in SMD, DIP and most other traditional formats. We also offer CTM active and passive devices in kit form. Established in 1987, we have decades of experience as a trusted supplier of electronic components to worldwide buyers. And with over \$10 million worth of products in stock, we can ship your orders immediately.

Our major brands include Fujisoku/Copal, Renesas, NEC, Mitsubishi, NXP, Freescale, TI, Samsung, OKI, Toshiba, Avago, NS, ST, ON, IR, LTC, Panasonic, Intersil, Atmel, Murata, Maxim, Dallas, ROHM, Microchip, Holtek, AVX, Vishay, Spansion, JRC, Fairchild, Epcos, Kemet, JAE, Nicera, Toko and more.

We specialize in SMD components and nearly every type of RF device including diodes, transistors, ICs, modules, trimmers and more. Our products are widely used in the wireless, automotive, home security and other markets. Contact us now to find out more.

- Tantalum capacitors (radial/SMD)
- Trimmer caps, double layer caps
- Microcontrollers/Microprocessors (MCU/MPU)
- RF power modules (JFET/MOSFET)
- Wide selection of transistors (To-92, To-220, To-3, power RF and more)
- Wide selection of diodes (Zener, tuning and more)

- Switches, sensors, potentiometers
- Supercapacitors and large aluminum electrolytic capacitors
- Filters, resonators, varistors, crystals, oscillators, saw filters and more
- SCRs, UJTs, PUTs, triacs, thyristors and more
- Optical, linear, computer, communication, voice and control ICs

- Chip ceramic capacitors and chip resistors (0402, 0603, 0805, 1206 and more)
- Chip coils, multilayer chip beads (EMI suppressors), inductors
- SRAM, DRAM, EPROM, EEPROM, FLASH and more
- Positive temperature coefficient resistors (PTC), resistor networks and resistor-capacitor networks (RC networks), NTC thermistors, Hall elements

Ceramic capacitors: Key trends, industry outlook, suppliers at a glance, gallery view

Key capacitor manufacturers advance ceramic...

» continued from cover

specific capacitance, frequency and reliability. They can be employed as filters and for commutation, coupling and high-speed charge-discharge in electric circuits.

Globally, this passive component is the largest category in the capacitor

Jimson's model CT8Y2 ceramic capacitor has 10 to 10,000pF measured at 1kHz±10 percent, 1 to 5V rms and 25 C.

China suppliers at a glance					
Company	Year established	Main product lines	Total annual sales (\$mn)	Total annual exports (\$mn)	
Dongguan Jianshun Electronic Co. Ltd	2004	Film, electrolytic, ceramic capacitors	50	20	<a href="#">CONTACT SUPPLIER</a>
Guangdong Fenghua Advanced Technology Holding Co. Ltd	1984	MLCCs, thick- and thin-film chip fixed resistors, chip inductors, semiconductors	352	38	<a href="#">CONTACT SUPPLIER</a>
Jimson Electronics (Xiamen) Co. Ltd	1987	Film, ceramic capacitors	10	6	<a href="#">CONTACT SUPPLIER</a>
Shenzhen Topmay Electronic Co. Ltd	1998	MLCCs, ceramic disc, aluminum electrolytic, film, tantalum, mica, supercapacitors	8	6	<a href="#">CONTACT SUPPLIER</a>

market, accounting for more than 45 percent.

Multilayer types lead, with share surpassing 90 percent. Fueling this trend is the steady release of features-rich electronic devices. Despite decreasing shipments of smartphones and tablet PCs, China makers are counting on greater demand for such variants from 4G LTE handsets, which require 400 to 500 such components compared with about 300 in traditional models. They also hope to benefit from the emerging wearables and Internet of Things segments, while taking advantage of an expanding base in the industrial control equipment, medical and automotive electronics, new energy and military fields. In 2015-21, the subcategory is expected to post double-digit CAGR worldwide, according to Persistence Market Research.

With these developments, domestic manufacturers are bolstering production capacity for ceramic capacitors. Guangdong Fenghua targets about 44 percent increase by end-2016, or 20 billion units monthly.

The product type represents about 90 percent of the company's yield. Shenzhen Eyang will raise its annual level to 200 billion units by this year's end from 120 billion at present.

**Foreign-led supplier pool**

Mainland China is the biggest manufacturing hub for the line, churning out approximately 50 percent of global output.

About 30 companies make up the sector, two-thirds of which are locally

# Buyer's Guide

## Key capacitor manufacturers advance ceramic...

» [continued from page 118](#)

owned and the rest with investment mainly from Japan, Taiwan and South Korea.

In addition to Murata, the latter group includes Samsung Electro-Mechanics, TDK, Kyocera, Taiyo Yuden, Yageo and Walsin. The second set up

The 1206B/102K501NT model from Guangdong Fenghua is a 500V multilayer ceramic capacitor with 560 to 1,000pF.

four factories for ceramic capacitors in Tianjin, and Suzhou and Dongguan respectively in Jiangsu and Guangdong provinces. Murata has plants in Wuxi, Jiangsu, and Beijing.

Guangdong Fenghua, Shenzhen Eyang and Chaozhou Three-Circle are their domestic counterparts. So far, only 10 percent of mainland capacitor makers offer ceramic kinds due to the steep technology and cost requirements.

Together, these major international and homegrown players generate more than 80 percent of the mainland's total ceramic capacitor production. The category is anticipated to grow steadily at an annual rate exceeding 10 percent.

The makers gather mainly in the Pearl River and Yangtze River Delta regions, and the Bohai Bay Rim Economic Region.

### Single, multilayer types

Typical ceramic capacitors from mainland suppliers come in single- and multilayer kinds, with the latter representing more than 90 percent of

sales. All single-layer units are leaded, while multilayer counterparts come in chip or MLCC variants as well.

Chip types lead the selection of multilayer units, mostly in 0603, 0402 and 0201 sizes. Units in 1210, 1206, 0805 and 01005 make up the rest of the selection.

Multilayer kinds dominate Guangdong Fenghua's ceramic capacitor output and about 90 percent are chip models. Releases in 0603 and 0402 represent 70 percent of the company's MLCC yield, while 0201 varieties have a 10 percent share. Jimson's range consists of multilayer units.

Based on the dielectric materials used, there are class 1 and class 2 types. The first includes mainly C0G and NP0, which suit resonant circuits for their high stability and low loss. Conventional models run in -55 to 125 C and have 0±30ppm/C temperature coefficient.

Class 2 ceramic capacitors come in X5R, X7R, Y5V, Z5U and X8R. These feature enhanced volumetric efficiency,

meeting requirements in smoothing, bypass, coupling and decoupling applications. X5R and X7R versions respectively support operating temperature of -55 to 85 C and -55 to 125 C. Both have ±15 percent temperature coefficient. As for Y5V models, it is -30 to 85 C and +22/-82 percent.

Besides ceramic, the key components in manufacture are electrodes and terminals. BME is the mainstream electrode used, while others adopt NME. In terminals, nickel and copper have replaced silver and palladium because of cost consideration.

In MLCCs, the terminals are usually Ni/Sn-plated, while leaded types employ copper or copper-clad wire with Sn/Cu coating.

Makers source inputs locally. They turn mainly to Shandong Sinocera for ceramic materials, while companies such as Guangdong Fenghua produce them in-house.

The cost of manufacturing inputs is expected to stay at current levels until 2016, and will keep prices steady. □

# Buyer's Guide

## GALLERY VIEW

A selection of ceramic capacitors from China

### 400V ceramic capacitor has 4,700pF

Dongguan Jianshun Electronic Co. Ltd

★★★★☆☆

The model WD Y1 ceramic capacitor from Dongguan Jianshun has 4,700pF and  $\pm 20$  percent tolerance. Its rated voltage is 400V and temperature coefficient is that of Y5V.

The minimum order is 10,000 units, with a 25-day delivery lead time.

[CONTACT SUPPLIER](#)

### 560 to 1,000pF MLCC for high-voltage circuits

Guangdong Fenghua Advanced Technology Holding Co. Ltd

★★★★☆☆

The 1206B/102K501NT model from Guangdong Fenghua is a multilayer ceramic capacitor with 560 to 1,000pF capacitance and  $\pm 10$  percent tolerance. The 1206 SMD unit is rated at 500V, which suits high-voltage circuits. It uses X7R dielectric. The supplier requires an order of at least 50,000 units. Delivery is within 7 days.

[CONTACT SUPPLIER](#)

### 10 to 10,000pF ceramic capacitor

Jimson Electronics (Xiamen) Co. Ltd

★★★★☆☆

Jimson's model CT8Y2 ceramic capacitor has 10 to 10,000pF capacitance measured at 1kHz $\pm 10$  percent, 1 to 5V rms and 25 C. Its rated voltage is 300VAC. The unit suits high-voltage circuits in TVs, monitors, electronic lighting ballasts, power supplies and telecom equipment, and can also be used as a snubber and EMI/RFI filter. It meets CSA, UL, SEMKO, SEV, FIMKO, NEMKO Korea, DEMKO and VDE.

[CONTACT SUPPLIER](#)

### 100 to 10,000pF ceramic capacitor

Shenzhen Topmay Electronic Co. Ltd

★★★★☆☆

The model TMCC02 ceramic capacitor from Shenzhen Topmay has 100 to 10,000pF under 1kHz, 1V rms and 25 $\pm 2$  C and not exceeding tolerance. The last is  $\pm 10$  percent K and  $\pm 20$  percent M. The maximum dissipation factor is 2.5 percent, and the insulation resistance  $\geq 6,000$  Mohm at 100DVC for 1min. The minimum order is 10,000 units, with delivery lead time of 10 days.

## Ferrite cores expertly crafted to your specific requirements

- Products backed by 30 years of industry expertise
- Over 80% of raw materials imported from Japan
- Automatic machinery and automated QC equipment from the US and Japan
- ISO 9001:2008- and ISO 14001:2004-certified factories in mainland China and Taiwan
- Monthly capacity of 500 million units

Contact us today.

Our products include:

- EMI suppressor snap-on ferrite cores
- Inductors
- SMD choke cores
- IFT cores
- Surface-mount chip inductor cores

EMI/inductor toroidal cores, EMI sleeve cores, balun cores and EMI filters

Ferrite cores

EMI suppressor ferrite core, can withstand peak currents

SMD common mode choke cores

Multiline board mount filters

## Capacitor for LED drivers

Nantong Sancon Electronic Technology Corp.

★★★★★

Nantong Sancon's aluminum electrolytic capacitor for LED drivers has 6.3 to 100V rated voltage. Its nominal capacitance is 5.6 to 6,800 $\mu$ F and capacitance tolerance  $\pm$ 20 percent in 20 C and 120Hz. The unit operates in -40 to 105 C and lasts 1,000 to 5,000 hours at 105 C.

## Patented self-powered power management IC

Shenzhen DongKe Semiconductor Co. Ltd

★★★★☆☆

This power management IC from Shenzhen DongKe integrates a patented power supply. The design eliminates the need for transformer auxiliary winding and associated bias supply components. The unit with 85 to 264V universal input voltage and 18W output power has a built-in 700V power transistor, and anti-EMI.

### Product details

Model	DK1208
Launched/upgraded	June 2015
Certifications	CE, C-Tick, ErP Level 6, FCC, RoHS
FOB price	\$0.10

### Supplier profile

Year established	2010
Export markets	Asia, Europe, South America
Certifications	ISO 9001:2008, 14001:2004

## A 38-year maker of reliable quartz crystal components and more

- Taiwan distributor for Fibocom(China)
- Agent of Seiko Epson
- OEM/ODM with QC team inspections

Get more precision into your transmissions

Frequency control products:

- Oscillators: SMD and DIP
- Crystal units: SMD and DIP
- Saws/ceramic resonators/filters
- LEDs: visible, infrared & LCM
- Robotics products: modules, building kits, controllers, flash memory drives, application & process control kits
- Touch panels & screens: capacitive/resistive touch panels & sensor controllers
- Bluetooth® product lines: modules & antennas
- Solar related products: chargers, panels, LED security warning lightst& LED sensor lights
- Components: relays, microphones, buzzers, gas tubes, switches, varistors & capacitors

▼ Components for vibration motors

GSM modules

LEDs

Touch panels

Solar products

Pioneering GPS antenna technology:

- 4G LTE/3G Wireless Module
- GPS smart antennas: integrated antennas with receiver modules (2-in-1 solutions)
- Omnidirectional antennas
- GPS-/Glonass-/BD2-series: receiver module/ G-Mouse/handheld
- Antennas/modules/modems for GPS/GSM/GPRS
- Wi-Fi/wireless communication antennas

Choke coils and power transformers

## Next - Gen Insider

### Smart-meter ICs on the rise

The global market for smart meters is going to be 132 million units in 2015 rising to 150 million units in 2019 at a CAGR of 3.2 percent, providing significant growth opportunities for ICs, according to research firm IHS.

Global revenue for semiconductors used in water, gas and electric meters reached \$1.2 billion in 2014, with YoY growth of 11 percent and a five-year CAGR of 8 percent. The average cost of chips used in two-way meters was approximately \$11 in 2014, based on IHS estimates.

About two-thirds of that

semiconductor revenue came from microcontroller and analog components.

Unusually, even though volumes and competition will increase over time, average selling prices are expected to climb rather than fall.

This is because the industry will be transitioning from low-cost 8-bit microcontrollers to more expensive 32-bit MCUs with additional memory requirements and SoC components with enhanced security features. □

To read the full article, please go to [EETimes](http://EETimes).

### 3D NAND debuts in storage arrays

It looks like flash storage company Kaminario will be the first all-flash array or AFA vendor to go out on a limb with 3D NAND. This is via the K2 version 5.5 all-flash primary storage array.

CEO Dani Golan told EETimes in a telephone interview the product introduces deployment of 3D TLC drives, while aiming to bring all-flash storage prices to less than \$1/GB. This is half the quote for its previous array released in May 2014.

By supporting 3D TLC solid state drives, K2 customers will be able to double the effective capacity of the array to more than 360TB per K-block and scale one K2 array to multiple petabytes in a single rack unit.

Kaminario will continue to provide

its seven-year warranty on all drives, including 3D TLC SSDs.

The longevity is made possible by features such as inline compression and deduplication, load-balanced writes, RAID optimizations and a flash-friendly data layout technology for large blocks.

The new product also features native array-based asynchronous replication.

Dolan said customers are at the point where they are comfortable with flash in the storage arrays, and are more interested in how an AFA meets their needs than the technical specifications or what kind of NAND. "What they care about is performance." □

To read the full article, please go to [EETimes](http://EETimes).

### Micron upbeat about turbulent 3D NAND market

Micron executives continue to predict a future ripe with opportunities for the company, even as financial markets appear to be less bullish on how it will perform in the near future.

In its 2015 Summer Analyst Day, Micron provided a state of the union and where it is headed. Executives echoed much of what they said in a spring update and its most recent quarterly results.

The turbulence the company faced from decelerating PC shipments has affected its DRAM business, acknowledged Micron CEO D. Mark Durcan. "It really caught a number of

us by surprise, but it is not a cataclysmic cycle," he said.

Despite the PC slowdown, Micron is forecasting 25 percent growth for its DRAM business in 2015 and 24 percent in 2016.

The company expects its recent spending on manufacturing and technology efficiency to really start paying off in 2016. "We feel pretty good about continuing to invest through these cycles," said Durcan. "We believe there is continued growth ahead." □

# We can complete your multilayer and HDI PCB prototypes in 5 days

20-layer PCB

16-layer PCB

34-layer PCB board with blind vias

34-layer with filled vias

## Extensive product range

When looking for a supplier of state-of-the-art PCBs, few companies offer the variety of highly advanced features that our PCB collection boasts. We offer 1- to 34-layer rigid, and 2- to 14-layer flexible and rigid-flex varieties, each bearing UL and IPC quality marks. What's more, our extensive range also includes PCBs with:

- Blind/buried vias with sequential lamination
- HDI buildup micro via technology with solid copper filled vias
- Via-in-pad technology with conductive and non-conductive filled vias
- UL-certified copper up to 6oz
- Metal backed PCBs and thermal management solutions

## Meeting customers' demands

With 14 years' experience and manufacturing facilities in mainland China and Europe, we are able to tailor our services and products to meet the needs of our international clients. Our items are currently being utilized across the telecommunication, medical, automotive, aerospace, power and energy industries.

## Impressive in-house facilities

We are dedicated to providing greater and more personalized services. That's why we have constructed a new production base in Jiujiang, China, equipped with state-of-the-art machines and using advanced manufacturing methods. For your convenience, we also employ sales agents across North America, Europe and Asia. For more information, contact us today.

# Contract manufacturing and component procurement

## From a 43-year industry leader

### OEM/ODM specialist exporting worldwide

Buyers in the US, Europe, the Middle East and Africa have been relying on our OEM/ODM services since 1972. They value our commitment to quality and service — factors which underline our contract manufacturing and PCB assembly, cable assembly, plastic injection and metal extrusion services. We use stringent quality assurance methodologies and state-of-the-art equipment to ensure continuous product improvement. You can be sure your orders will leave our factory in the best condition possible. In addition, we have a worldwide agent network and several offices internationally to provide aftersales services.

### Efficient production and strict QC inspections

We are dedicated to providing you with reliable board-level assemblies and full box builds. From SMT/PTH assemblies with multilayer boards to full box builds using plastic or metal enclosures, we have the manufacturing capabilities you need. We can also provide cable assemblies and component procurement services for active, passive and mechanical components to reduce your costs and lead times. With efficient production and procurement processes that are backed by stringent QC measures, we can ensure high-performance products for your volume orders.

### Benefit from our global procurement network

We are committed to being a cornerstone of your supply chain. With a global procurement network, we offer flexible manufacturing options, personalized services and competitive prices. Our catalog offers a wide array of components, which include — but are not limited to — connectors, transformers, active, passive, and mechanical components. Call us today.

Heavy-duty assembly with heatsink

Hybrid IC assembly

BGA assembly

Full box build with metal enclosure

Potted module

Micro BGA assembly

0201 assembly

Special hard metric backplane connector

Full box build with plastic enclosure

Full box build with plastic enclosure for GPS tracker

### Plastic injection and metal extrusions

### Cable and wire assemblies/connectors

### Active components and transformers

### LED bulbs and modules

- Consume one-tenth the energy of incandescent bulbs, brightest model only uses 3 watts
- Slightly warm to the touch after extended usage
- Available in E12, E14, E17 and E27

# Plastic parts makers emphasize injection molding for CE products

Customization remains the key production driver, with services covering mold design and making to final inspection.

China plastic parts manufacturers catering to the consumer electronics industry highlight capability for precision injection molding and have a range of equipment for flexibility to meet diverse requirements. They offer mold design and making, surface treatment and inspection as value-added services.

Shanghai Everskill Material Co. Ltd has 22 plastic injection equipment with 80 to 800-ton clamping pressure.

Yonwoo Precision Mold Technology Co. Ltd and Goodyear Mold Co. Ltd have 17 units each, respectively with 80 to 450 tons and 90 to 530 tons. Merrich Plastic & Electronics Co. Ltd's 97 machines are in the 45 to 500-ton range.

For mold tooling, the typical equipment include CNC machining centers and lathes, EDMs, and milling, grinding, drilling and wire-cutting machines.

The common mold precision among local suppliers is 0.05 to 0.001mm, while finished parts tolerance is 0.01 to 0.05mm. Shanghai Everskill and Yonwoo can realize 0.001mm molds, with up to 0.01mm-tolerance plastic parts for the former and 0.02mm for the second.

To implement strict QC procedures, makers use X-ray detectors, 3-coordinate measuring machines, hardness and abrasion testers, and

other measuring instruments.

For materials, they turn to local providers. Due to the insufficient supply of plastic, companies also obtain inputs from Germany, the US and Japan.

Asked about 3D printing, interviewed suppliers agree it is impressive, especially in prototyping and low-volume production, but maintain that injection molding is still

Stamped metal and spring production workshops

Multilayer PCBs with various surface finishes

# We accept PCB and PCBA orders of all sizes

We welcome small- and medium-sized orders, even if they are for less than one square meter's worth of PCBs or PCBAs. With the latest production equipment and 16 years of experience at our disposal, we provide comprehensive services that cover SMT, PTH and circuit testing for PCBAs. We also manufacture PCBs of up to 22 layers, FPCs of up to four layers and MCPCBs of up to two layers. Plus, we're one of mainland China's few suppliers of HDI PCBs. Our turnkey services include molding, plastic injection, functional testing and final assembly.

As for quality management, we make certain that each item in your order is inspected to your specifications before shipment. And to further ensure a smooth sourcing experience, all of our products are RoHS-compliant. Inquire now.

Gold-plated FPC

Gold-plated FPC

# Buyer's Guide

## Plastic parts makers emphasize injection molding for CE...

» [continued from page 152](#)

the best for mass manufacture. This is because of the latter's advantages in terms of economies of scale and turnaround time. As such, Goodyear, Merrich, Shanghai Everskill and Yonwoo have no plans to adopt the new technology in the near future.

The T-M-A3-#1721 model from Goodyear is a customizable PC part for computers. It is UV-resistant.

China companies are confident of stable growth in the years ahead. They are banking on the global consumer electronics market, which is projected to maintain CAGR of more than 3 percent in 2015-20. To take advantage of this development, Yonwoo allocates about 30 percent of plastic parts manufacture for this application, Shanghai Everskill 25 percent and Goodyear 20 percent. They churn out cases, panels, structural components and wear parts.

Besides the CE sector, makers benefit from the automotive industry, the line's other key demand driver. At the same time, they serve the home appliances, industrial and medical equipment, and the aerospace and military sectors.

China is the world's largest manufacturing base for plastic parts. From January to July 2015, its output hit 41.4 million tons, up by nearly 2 percent from the same period in 2014. Exports rose by about 3 percent, reaching 5.5 million tons. In 2014, the total was

73.9 million tons, 19 percent higher compared with the previous year.

There are more than 10,000 makers of plastic parts there, operating mainly in the Pearl River and Yangtze River Delta regions, and the Bohai Bay Rim Economic Region.

### Material-based range

China suppliers adopt commodity and engineering plastic, and plastic alloy.

Products in the first category have heat resistance below 100 C. ABS units lead supply among other kinds. These include shells, linings and spare parts of TVs, refrigerators, washing machines, air conditioners, water dispensers, telephones and electric fans.

The engineering plastic segment has better mechanical and thermal properties for demanding physical environments. Such parts can replace some metal as structural material, and suit specific bearing and wear applications. They are widely used in the machinery, automotive, electronics, home appliances, aviation

and aerospace fields.

Releases based on plastic alloy find broad adoption in the automotive, electronics, precision instruments, office equipment, and packaging and building materials sectors.

Shanghai Everskill's selection comes in PP, PE, PC, PA, ABS, PVC and POM, with those in PC making up its mainstream line. Yonwoo's plastic parts include glass fiber-reinforced nylon, ABS, PP, POM, PC, PE, TPU/TPR, PVC, PPS and HDPE kinds, with ABS models dominating output. Merrich offers mainly PP, AS, PPS, PA, HIPS, PE and ABS/PC products.

Local companies accept custom requirements, including materials, dimensions, tolerance and surface treatment.

In addition to injection molding, some have facilities for extrusion, calendaring, blow molding, and thermoforming.

Prices are expected to stay at current levels until 2016 as material costs remain stable. □

## GALLERY VIEW

A selection of plastic parts from mainland China & Taiwan

### PC part for computers

**Goodyear Mold Co. Ltd** (Mainland China)

★★★★☆☆

Goodyear's model T-M-A3-#1721 part for computers is made of UV-resistant PC. Custom designs are accepted.

The minimum order is 500 pieces, and delivery lead time is 25 days.

[CONTACT SUPPLIER](#)

### Plastic part for control panels

**Merrich Plastic & Electronics Co. Ltd** (Mainland China)

★★★★☆☆

Merrich has MBC-6395018-0D-2 model, an ABS 758 part with IMF surface finish for control panels. Dimensions are 500x400x376mm.

Customization is accepted. The minimum order is 1,000 pieces, and delivery is 35 days.

[CONTACT SUPPLIER](#)

### Plastic part based on 3D CAD/CAM

**Shanghai Everskill Material Co. Ltd** (Mainland China)

The ES-07E908 model from Shanghai Everskill is designed using 3D CAD/CAM such as Pro/E, SolidWorks, UG/2 and AutoCAD. It comes in PP, ABS, TPR, TPE or PC and various colors. The molds are made in-house. Over- and insert molding can be done, as well as electroplating, painting, silk-screening, thermal transfer printing, ultrasonic welding and prototyping.

[CONTACT SUPPLIER](#)

### Plastic part for consumer electronics

**Win Industry Co. Ltd** (Taiwan)

★★★★★★

The Double-Injection Molded Parts model from Win targets consumer electronics, general industry and medical products. Surface treatment options are electroplating, spraying and silk-screening. The mold is made in-house.

## PCB adopts high Tg FR-4 base material

Shenzhen Longteng PCB Co. Ltd

This metal-core PCB from Shenzhen Longteng has a high-Tg FR-4 base, and ENIG, flash gold, gold finger or OSP surface finish. The minimum line width and spacing is 3mil, while the holes can be as small as 0.76mm.

### Product details

Model	FR-4
Launched/upgraded	July 2015
MOQ	3sqm
Lead time	3 to 5 days
Certifications	RoHS, UL

### Supplier profile

Year established	2007
Total staff	1,500
Certifications	ISO 9001:2008

## Rigid-flex PCB with as small as 0.1mm holes

Top Electronic Technology (Shenzhen) Co. Ltd

★★★★☆

Top has a PCB consisting of 4-layer rigid and 2-layer flexible boards, and with an ENIG surface finish.

The impedance-controlled rigid-flex unit has 3mil minimum line width and spacing, and 0.1mm minimum hole size.

### Product details

Model	PCB-Top-5489
Launched/upgraded	January 2015
Lead time	5 days
FOB price	\$1

### Supplier profile

Year established	2005
Export markets	Europe, Asia, North America
Annual sales	\$2 million
Certifications	ISO 9001, 14001

PCB assemblies

## Providing OEM electronics manufacturing services

You can focus on design and marketing while we take care of your procurement and production operations

- Established in 1993
- We specialize in customized PCBAs
- Adhering to ISO 9001:2008 and ISO 14001:2004 guidelines
- Products meet IPC-A-610 and IPC J-STD-001 guidelines
- All items come with 1-year warranties

E-mail us today to find out how we can fill your requirements.

To simplify your operations and save you time, we offer a wide range of services and products. These include:

- Layout and re-layout based on your design or the present product
- Circuit board fabrication • Full component procurement or substitute component sourcing
- Cable assemblies and wire harnesses
- High-frequency transformers and low-frequency power transformers
- Cases offered in a variety of materials • PCB assemblies on SMD, BGA and through-hole
- Turn-key/partial turn-key/consignment assemblies
- Lead-free product assemblies with or without RoHS mark • Conformal coating
- Case assembly (ultrasonic plastic welding machine)
- Package assembly (PVC/PET-G blister welding machine)
- Tests (X-ray, 3D microscope, AOI, ICT and functional tests)
- Final box build and packaging • Shipment arrangement

Custom metal case molding and plastic/rubber injection molding

PCB, cable and case assembly

BGA PCB assemblies

## Next - Gen Insider

### Thermal interface materials market heating up

Predicted market share for thermal interface materials by technology in 2015

Endless advances in electronics are changing every aspect of our lives. Consumers demand devices that are faster, thinner and lighter while being reliable. This means higher-density and -power electronics, especially in smaller wearable devices. But this leads to more heat building up from the components, which damages and degrades the electronics. The problem is leading to a large opportunity for materials that can manage heat generation better—known as thermal interface materials or TIMs—and, consequently, enable electronics to operate faster.

The TIM market will be \$1.3 billion in 2015, according to IDTechEx Research. It will grow to \$3 billion by 2025.

#### Material options

When thermal management first started to become an issue, the choice of materials on offer was limited. Thermal grease was used to fill gaps between power devices and heat sinks. Manufacturing with grease is messy and imprecise, so while the material remains popular in industrial computing and consumer electronics, it is experiencing decreasing market share.

Over time, thermal pads made from a silicone elastomer and electrically conductive fillers began to emerge. These are cleaner, easier to use and more precise. The pads fill air voids between mating parts when subjected to assembly pressures from clips or screws, and exhibit continually improving thermal performance as further flowing of the material occurs. Pads of this kind will be the most widely used thermal interface material by 2025. □

### RRAM breaks records with graphene

Layered structure of tantalum oxide, multilayer graphene and platinum used for a new type of RRAM

The key is a material stack with a built-in Schottky contact per bit, taking the place of the diode required by the most efficient designs to date. Tour said it sports ultralow leakage (sneak) currents, enabling up to 162Gb (20GB) crossbar arrays.

"Our group's ultrahigh-density nonvolatile resistive memory uses a 3D material that can be fabricated at room temperature," professor Tour told EETimes. "Each device shows excellent selectorless memory on-off ratios higher than 10 at 3.6V."

The Tour group at Rice has been working on RRAMs for many years, and has licensed previous versions for manufacturing. Its last RRAM design using silicon dioxide as the active material has been licensed by Tel Aviv-based Weebit Nano Ltd, said Tour. □

To read the full article, please go to [EETimes](http://EETimes).

By combining a novel architecture, room temperature processing and a high-density resistive material stack, professor James Tour at Rice University has produced a 3D stackable RRAM, which outperforms competitive designs in both speed and bits-per-crossbar.

## More than 15 years' experience in RF design and production

Wi-Fi module and dongle

- IEEE 802.11 a/b/g/n/ac
- 5dBi gain
- Supports MediaTek, Realtek and Qualcomm chipsets
- For set-top boxes, smart TVs, laptops and desktop PCs

- Up to 3 million units monthly
- Strong R&D team and reliable technical support service
- Advanced testing equipment and rigorous QC

## Reliable PCBAs thanks to a stringent QC process

PCBAs for customized switching power supplies

X-ray inspection and rework station for BGA devices

Here at Trio, we make it our priority to offer our clients the best PCB assemblies and magnetic parts possible. We do this by manufacturing all of our products under ISO/TS 16949:2009, ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007-certified management systems and taking our QC process to another level. For instance, during product testing our 150 inspectors use AOI, ATE, optical and EDS RoHS analyzing machines to ensure defect-free and ecofriendly items. With three SMT lines and a new X-ray inspection and rework station, we make up to 600,000 units monthly. Inquire now.

### 3 signs your man in China might be on the take

China is a unique place with a culture, especially its business culture, that continues to confound Western business people no end and not just in obvious ways. There is nuance, too.

Whatever ethical norms you have come to expect, they do not apply in China. Why should they? This is a truly different place. The more opportunity there is to profit personally from your operations through fraud, the greater temptation there will be to take advantage of you and your company—and in ways you would never suspect. Think unbridled Wild West.

Innumerable pitfalls await the unwary in China. But there are ways to safeguard yourself and your company. One practical way to do this is to keep an eye out for, and make note of, behaviors and circumstances that singly, or in combination, could indicate that something is amiss in your organization.

Treat these as caution lights indicating potential trouble, not proof of wrongdoing. If you notice several signs adding up, quietly raise your level of vigilance, explore and start nosing around. Here are a couple of examples of what I am talking about.

#### You cannot seem to get ahead of your competition

Years ago, I had an interesting conversation with the newly hired China country manager of a well-established US industrial systems manufacturer. The company made and sold bespoke pneumatic systems for factories to their industrial customers.

It was number one in industry rankings in every other market on earth, but in China the company was and stayed at number 3 and never seemed able to catch up with competitors.

#### Even with a booming market

Demand in China was explosive due to the build-out of industries and the arrival of Western companies setting up their manufacturing sites.

The company grew steadily year-on-year, but revenue growth always seemed to lag its two global competitors, and margins were not

quite what they should have been either. We were called in to recruit a new managing director, China.

#### Hey, what's that smell?

Among his first actions was to probe the company's distributor/agent arrangements, a primary area for corrupt activity in China. Boom! For eight years, the company's top man in China, the general manager and his wife, and the north China distributor had creamed off a large part of the China profits. The loss to the company was in excess of \$8 million. Nothing recovered.

#### Precautions you can take

Take preemptive precautions against this kind of fraud. Minimize tempting opportunities by employing internal checks and balances, a formal approval process, conducting physical audits, spreading authority, ensuring sensible reporting lines, being actively present and aware, etc. For your top positions, you might even consider having a due diligence check run by Kroll or other service providers.

#### All for one and one for all

Here is another juicy area: if all or many of your suppliers have been identified and qualified by a single person in your organization, that is a red flag. If they are all managed by the same person, even worse—exclusively handled, negotiated with and renewed year after year by the same person, look out. That is a big flapping red flag.

This all sounds pretty paranoid and ominous, but I have been surprised at the number of companies, especially smaller operations in China, that neglect this area and fail to have any kind of system for guarding against and/or detecting fraud.

The bigger companies seem to do this as a matter of policy, dividing responsibility among several positions, requiring approvals at different levels, employing a formalized system for managing vendors, rotating negotiators/managers, and even so, because the potential for individual plunder is so great, even the biggies regularly get caught up in scams.

Far more often, the siphoning

## PCBs used by firms in the US, Europe and Japan

8-layer rigid-flex PCBs

For over a decade, electronics firms in the US, Europe and Japan have imported our PCBs, so we know how to ensure quality workmanship and world-class service. All of our PCBs meet IPC-A-600 standards and our facilities are ISO 9001:2000-certified. Minimum line widths are 0.07mm and minimum hole sizes are 0.1mm. Inquire today to find out about our range of materials and finishes.

## Smart Sourcing

» [continued from page 180](#)

goes completely undetected, with commissions and other forms of payoff being made so discreetly that no crime is ever uncovered.

### Splendid fiefdom

I was involved in one case where the general manager was hired at startup in China and had been there for nearly 10 years. Procurement of equipment, raw materials, component parts, tooling and consumables had fallen to him in the beginning, and had naturally become part of his ongoing responsibilities. Even after he had a procurement department, he held on to final vendor contract negotiation and approvals. This seemed absolutely normal to everyone at the company.

Every year, the company purchased \$30 million to \$40 million in materials equipment, etc., and the GM signed off on it all. No approvals, no extraordinary documentation, no muss, no fuss. Except the GM had negotiated his own 5 percent commission on the purchases with each of his suppliers. Nice. That is \$1.5 million to \$2 million a year—tax-free, scrutiny-free. There is more gore but the short version is that the GM was thrown out after a long battle.

### Can you believe it...

The happy ending is that virtually all the vendors professed relief when the regime fell and offered an immediate 5 percent discount on their pricing, saving the company \$1.5 million to \$2 million annually in procurement. New rules, competition and cut in the number of vendors netted the company even more gains. In my calculations, that immediate discount from all the vendors was the smoking gun, the tipoff pointing exactly to their deal with the former GM.

### Precautions you can take

Enforce a division of labor and responsibilities in procurement, a clear code of ethics, train against corrupt activities, monitor constantly, take special care in recruitment and vetting of procurement personnel, rotate routinely to limit vendor/buyer opportunities for misbehavior. Adopt formal mechanisms that physically and administratively separate activities, vendors, decision makers and the items procured. This is the single most

active area in China for collusive funny business, so be particularly sensitive to the goings on and the dynamics of this department. If you get hosed, it will only be because you let yourself be.

### How in the world...

A third example: "Our GM is about the only guy in the operation who speaks English." How does this possibly present a threat to the company's China operations?! Good question. And the answer? Well, it does not necessarily, but it might. Here is why.

If this is true for your company, you are totally dependent on one person for everything related to the operation. That is not a good practice anywhere, but in China, it is particularly dangerous.

### Precautions you can take

Make sure you have more than one information source for data, information, news and opinions about your operation in China. Cross-check using as many of your sources as you can.

Make it clear from the outset that your new hires at senior and midlevel will be English speakers expected to communicate with US-based counterparts regularly. Overcommunicate. You will be amazed at what conversations take place over dinner, beers, etc. as opposed to management meetings.

So there you have it, three simple examples of behavior that might warrant further scrutiny of your China operations. But these are just the tip of the iceberg. Examples of misbehavior abound in China.

Raise your level of awareness and vigilance in China. Protect yourself and your company by taking some simple, low-cost precautions, putting in place policies and practices that remove temptations and make it harder to "game" the system for personal gain. With attention and perseverance, you can gain peace of mind and avoid damage to your company. □

# Major names rely on our flexibility

## Shure and Panasonic prefer our parts

Major global buyers such as Shure and Panasonic source microphone components and accessories from us. They value our broad range and production abilities. Whether you need gooseneck lamps, cable assemblies, connectors or adapters, our in-house designers will complete your OEM/ODM orders. And with our 1 million-unit monthly capacity and minimum order requirement of 300 units, both large and small projects can be handled.

## Products meet international standards

We craft products using licensed technology from manufacturers in Europe, the US and Japan. We've also received accreditation from France's Bureau Veritas and perform rigorous testing in compliance with MIL-STD-202E.

What's more, we offer two- to three-year warranties, allowing you to order with confidence. To learn more, contact one of our service representatives today.

# USB connectors suppliers prepare for version 3.1 uptake

Units in the latest specification still have less than 10 percent share of local output. This will climb as makers boost production in coming months.

Although USB 3.0 connectors will stay in mainstream supply in mainland China, a growing number of companies have started shifting their attention to USB 3.1 variants. The latter type represents less than 10 percent of output at present.

This, however, will change as manufacturers look to adjust the ratio in anticipation of higher demand in 2016.

Most are planning to raise the

volume by 10 percent in the months ahead. They are counting on USB 3.1's local market share advancing further next year from between 10 and 20 percent in end-2015.

Globally, requirement for USB 3.1 connectors, particularly type C used in mobile electronics, has been on the rise in the past one to two years, thanks to the support of major international players such as Apple, Google and Nokia.

The standard's 10Gbps transmission speed, 20V, 5A power rating and enhanced EMI and RFI mitigation are anticipated to broaden adoption in various electronics.

There are more than 200 suppliers of USB 3.1 connectors in the mainland, and over half are makers with investment from Taiwan and Hong Kong.

The majority of the manufacturers churn out other types of connectors and cable assemblies.

A few offer Thunderbolt 2 connectors, but the portion is 5 percent of yield as production is still based on orders only.

In the USB category, 3.0 units have a sales share exceeding 60 percent at present.

The makers gather mainly in the Pearl River and Yangtze River Delta regions.

## Buyer's Guide

### USB connectors suppliers prepare for version 3.1 uptake

» continued from page 194

is the largest manufacturing hub, with the cities of Dongguan and Shenzhen being the key areas.

#### Typical USB 3.1 releases

The local selection consists of types A, B and C in male, female, SMD and DIP configurations, with the first leading production.

Dongguan Jiangnan's model C360261100 USB 3.1 type C male connector has a 10,000-cycle life span.

The connectors come in 5, 12 and 20V rated voltage, and 1.5, 2, 3 and 5A rated current.

These have copper alloy contacts with gold plating, and steel shell and UL94V-0-rated thermoplastic insulators.

All products comply with RoHS requirements.

**The standard's 10Gbps transmission speed, 20V, 5A power rating and enhanced EMI and RFI mitigation are anticipated to broaden adoption in various electronics.**

The key materials such as copper, gold, nickel, tin and plastic are sourced locally.

A number of manufacturers also purchase thermoplastic from overseas providers.

The cost of manufacturing inputs has been stable, keeping prices unchanged.

Most companies project this trend will persist in coming months. □

## Mission-critical cables for the transportation and electronics industries

Since 1982, we've provided the highest quality cables and harnesses to international buyers in the aerospace, military, OEM automotive, marine, health-care and other industries. When your low-cost suppliers let you down, turn to us for your critical cable and harness assemblies. Our combination of low cost, efficient manufacturing and world-class quality will add value to your products.

We offer complex cable harnesses, custom overmolding, RF cables, flat cables and more – all produced in-house. Plus, we're able to accommodate short-run and high-mix orders and can produce samples with very quick turnaround. What's more, we offer full reverse engineering from samples and 3-D CAD modeling. Contact our English-speaking staff today.

Our products and services include:

- RF cables • Wire harnesses • Flat ribbon cables/FFC cables • USB cables • LAN/telephone cable assemblies
- Networking cable assemblies • Distributors for relays, connectors, capacitors and wires/CCA wires

## 300V, 15A terminal block

Cixi Chaoyue Electronics Co. Ltd

★★★★☆☆

Cixi Chaoyue's terminal block comes in pitches of 5, 5.08, 7.5 and 7.62mm, and suits 12 to 28AWG wires.

The 300V, 15A-rated unit has 0.4N•m torque. Its contacts are made of brass and the housing of UL94V-0-rated nylon 66.

### Product details

Model	64
Launched/upgraded	January 2015
MOQ	5,000 units
Lead time	10 days
Certifications	CE, RoHS, UL

### Supplier profile

Year established	2001
Export markets	North America, Western Europe, Asia

# Analyst's Choice

## LC fiber-optic adapter with SC footprint

Ningbo MR Communication Accessories Co. Ltd

★★★★☆

Ningbo MR's duplex LC fiber-optic adapter with SC footprint and no flange comes in single- and multimode versions. It has PC, UPC or APC end-face polish. The insertion loss is no more than 0.2dB for PC, UPC or APC variants, and does not exceed 0.3dB for multimode kinds. The model meets Bellcore GR-326 requirements.

### Product details

Model	LC/PC-Duplex, SM, SC Footprint-A
Launched/upgraded	March 2015
MOQ	500 units
Lead time	3 days

### Supplier profile

Year established	2000
Export markets	North America, Western Europe, Asia
Annual sales	\$3 million
Certifications	ISO 9001:2008

## USB 3.1 type C-to-HDMI 1.4 adapter

Mingji Electronics Technology Group

Mingji's USB 3.1-to-HDMI 1.4 adapter features the reversible type C plug and adopts an anti-twist cable. The connectors are gold-plated. The unit with charging and sync functions has DisplayPort 1.2 alternate mode. It supports up to 4Kx2K HDMI output resolution, and 5.4Gbps (HBR2), 7Gbps (HBR) or 1.62Gbps (RBR) data transfer.

### Product details

Model	MGE-B
Launched/upgraded	June 2015
MOQ	1,000 units
Lead time	3 to 30 days
Certifications	CE, FCC, RoHS
FOB price	\$10 to \$20

### Supplier profile

Year established	2000
Export markets	US (30%), Europe (30%), Asia (40%)

OTG charging cable, supports data sync and image transfers

### Screwless terminal block has 5mm pitch

Cixi Kefa Electronics Co. Ltd

★★★★☆☆

Cixi Kefa's 5mm-pitch screwless terminal block suits 12 to 28AWG wires with 6 to 7mm strip length. The number of poles is customizable. The 300V, 15A unit boasts 2,000VAC/min withstand voltage. It has tin-plated brass contacts, stainless steel clips and UL94V-0-rated nylon 66 housing. The operating temperature is -40 to 105 C.

#### Product details

Model	KFM736
Launched/upgraded	January 2015
MOQ	10,000 units
Certifications	CE, RoHS

#### Supplier profile

Year established	1990
Export markets	Asia, Australasia, Central/South America
Export products	Terminal blocks, connectors
Annual sales	\$0.95 million

## Partnership

“ When we started out as a small company, we chose to advertise on the back cover of a Global Sources trade magazine. Many doubted us at the time, but we saw the potential for a long-lasting relationship. And over the years, Global Sources has tackled every challenge and consistently enhanced its specialized B2B marketing services. Their support has helped us achieve constant growth, even in the most difficult times. ”

**Louis Liao**

Chief Executive Officer,  
Excel Cell Electronic Co. Ltd  
Global Sources 30-year advertiser

# High-quality capacitive touch-screen keypads and switches for electronic devices and home appliances

## Serving world-famous enterprises

What makes us the preferred supplier of Honeywell, Panasonic, Trimble Navigation and other world-renowned companies? Since 1978, we've been efficiently manufacturing a wide range of electronic device components.

## Utilizing a mold-flow system

At our 90,000m<sup>2</sup> factory with ISO 14001:2004 and ISO/TS 16949:2009 certifications in mainland China, we provide in-mold decoration, silk-screening, label-making and other services. We use a mold-flow software system to make our production process more efficient. And we have 1,000 employees on hand to process your orders – including 30 skilled engineers and 60 plastic and rubber mold-making specialists.

## Providing R&D from Taiwan

To further enhance the quality of our goods and our production efficiency, we provide R&D services from Taiwan and logistics from Hong Kong. To view our full product line, log on to our Global Sources website today.

## Buyer's Guide

*High-power LEDs: Key trends, industry outlook, suppliers at a glance, gallery view*

# High-power LEDs based on PSS, ceramic on agenda

Rising requirement spurs R&D on latest types. The mainstream selection is still dominated by units with dissimilar and aluminum substrates.

The enhanced performance of high-power LEDs that use patterned sapphire and ceramic wafers has accelerated adoption in recent years, attracting the attention of diode makers in China. While non-PSS and aluminum types remain widely produced, the output share of sophisticated variants will climb in coming years as a bigger number of companies develop such units. At present, fewer than 10 suppliers can offer PSS variants, while about 100

companies turn out ceramic kinds, which account for 5 to 20 percent of their yield.

At Everluck Optoelectronic Technology (Shenzhen) Co. Ltd, ceramic models represent between 30 and 40 percent of production. The ratio will exceed 40 percent with rising demand and as the manufacturer bolsters shipments overseas. Everluck expects to maintain 5 percent sales growth from the category by year-end.

High-power LEDs based on PSS technology boast elevated luminance output and efficiency, surpassing non-PSS counterparts by nearly 23 percent and 41 percent. These have better reliability and stability, with luminous decay of 0.4 percent after 1,000-hour aging at 350mA and almost 3 percent at 700mA.

Compared with aluminum, ceramic substrates such as alumina or  $\text{Al}_2\text{O}_3$  and aluminum nitride or AlN bonded

with copper foil exhibit greater electric insulation, heat conduction, strength and corrosion resistance. Almost similar in thermal expansion coefficient to silicon chip, these have reduced thermal resistance and longer life span. The thermal resistance of ceramic wafers with a 25 to 35 $\mu\text{m}$ -thick insulation layer can be as low as 0.06 C/W, while that of aluminum versions having 60 $\mu\text{m}$  insulation is 1.7 to 3.2 C/W.

## High-power LEDs based on PSS, ceramic on agenda

» [continued from page 254](#)

Driven by the expanding LED lighting industry, China manufacturers of high-power diodes will continue to bolster overall production and R&D for advanced varieties.

The green technology will own up to 40 percent of the global illumination sector by 2016 from 7 percent in 2010, according to McKinsey. By 2020, this will reach 60 percent. The same boom is happening in China, where LED lighting is expected to have more than 20 percent share of the local illumination segment by end-2015 from 14 percent in the previous year and about 9 percent in 2013, said CSA Research.

In terms of market scale, LED lighting will hit \$25.7 billion in 2015, representing 31 percent of the worldwide total, according to LEDinside.

There are about 200 suppliers of

### China suppliers at a glance

Company	Year established	Main product lines	Total annual sales (\$mn)	Total annual exports (\$mn)	
BOSMFC Optoelectronics Co. Ltd	2004	LEDs	0.1	0.005	<a href="#">CONTACT SUPPLIER</a>
Everluck Optoelectronic Technology (Shenzhen) Co. Ltd	2003	LEDs	•	•	<a href="#">CONTACT SUPPLIER</a>
Foshan Evercore Optoelectronic Technology Co. Ltd	2010	LEDs	•	•	<a href="#">CONTACT SUPPLIER</a>
Lucky Light Electronics (Asia) Co. Ltd	1990	LEDs	20	12	<a href="#">CONTACT SUPPLIER</a>

high-power LEDs in China, including foreign-invested companies. Over two-thirds are locally owned businesses, with an aggregate market share exceeding 50 percent.

The key production areas are the coastal provinces of Guangdong, Fujian, Jiangsu and Zhejiang, specifically major cities such as Shenzhen and Dongguan in the first, Xiamen in Fujian and Suzhou in Jiangsu.

### COB units dominate supply

High-power LEDs with PSS and ceramic substrates from mainland China suppliers come mostly in single-chip or COB package, representing more than

80 percent of turnout. These have a rated power of 1 to 100W.

Various colors are available, including white, warm white, red, green and blue.

The target applications are street, underground and reading lamps, spot and traffic signal lights, and architectural and landscape lighting. BOSMFC Optoelectronics Co. Ltd offers variants such as model B3535\*19ZWC ceramic high-power for greenhouses.

Most products comply with RoHS requirements.

Besides PSS and ceramic, the main materials and components used in manufacture include chips, lenses, adhesives and gold wires. The majority

of companies source them locally, with the exception of chips that may also come from Taiwan and US providers. The last includes Opto Tech, Genesis Photonics and Chimei.

Domestic high-power LED companies are counting on the greater localization of PSS and ceramic substrate production to help reduce costs and prices further for enhanced competitiveness.

In the past 12 months, lower material outlay enabled them to cut diode quotes by 5 percent. Most makers expect the downward trend to persist until the year's end. □

A selection of high-power LEDs from China

### Ceramic-based high-power LED in 1, 3W

BOSMFC Optoelectronics Co. Ltd

★★★★☆☆

BOSMFC's model B3535\*19ZWC high-power LED with a ceramic substrate has 1 or 3W rated power. It comes in blue, red and green versions. The rated voltage is 2.4 to 3.8V, and input current 700mA. Dimensions are 3.45x3.45x1.9mm. The unit complies with RoHS. The minimum order is 1,000 units. Delivery is within 12 days.

[CONTACT SUPPLIER](#)

### 380 lumens high-power LED with ceramic substrate

Everluck Optoelectronic Technology (Shenzhen) Co. Ltd

★★★★☆☆

This high-power LED with ceramic substrate from Everluck, model YJ010-1230T30R80, boasts 380 lumens luminous flux, ≥80 CRI and 3,045±175K color temperature. Its rated voltage is 12±0.5V DC and forward current 300mA. Applications include street and indicator lamps, spot- and traffic signal lights, and architectural and outdoor lighting. The product meets CE and RoHS.

[CONTACT SUPPLIER](#)

### Ceramic high-power LED for automotive use

Foshan Evercore Optoelectronic Technology Co. Ltd

★★★★☆☆

The ZH-C14 model from Foshan Evercore is a high power LED for automotive lights. It uses a ceramic substrate.

Rated at 10 or 15W, the unit has ≥70 CRI and 125lm/W luminous efficacy. It runs on 8 to 12V and 1,000 or 1,500mA. The negotiable minimum order is delivered within 15 days.

[CONTACT SUPPLIER](#)

### Ceramic-based high-power LED with 8kV ESD protection

Lucky Light Electronics (Asia) Co. Ltd

★★★★★

Lucky Light's C3535W-W5H-Q90 model is a ceramic-based high-power 3535 SMD LED with 350mA rated current. It features ESD protection of up to 8kV. The unit suits general, industrial and commercial lighting applications.

The maker requires an order of at least 1,000 units, with a 10-day delivery lead time.

## Supplying fiber optic products to various telecom companies

Ethernet switches

- Resistant to electromagnetic interference and extreme environments
- Longer transmission distances supported
- No software needed • Large bandwidth and capacity

- Clients include Viettel, Telefonica and Claro Americas
- 1,000 media converters and 20,000 patch cord connectors daily
- All products tested before shipping; regular items ready in 2-3 days

**Aoa Aoa Technology Co. Ltd**

5/F North, Chuangyu Jindi Technology Park, 1222 Guanguang Rd., Bao'an, Shenzhen, Guangdong 518000, China

COG LCD module

## LCD and LCM specialists since 1995

- Over 18 years' expertise in LCD design and manufacturing
- Full range of TN, HTN, STN, FSTN, DFSTN, VA, FSLCD and color TFT displays
- Total display solutions including MCUs, control boards and touch panels
- OEM/ODM/turnkey/PCBA services available

AMOLED micro-displays

## AMOLED micro-displays from a leading manufacturer

- Offering 0.5", 0.6" and 0.97" displays with SVGA and SXGA
- Our items boast 0.18μm CMOS technology
- ISO 9001:2008-certified facility produces 450,000 units annually

## LED solutions that can last up to 20,000 hours

LED indicators

- BA9s and E10 base types
- 6-240V • 10,000-30,000hr life span
- Red, yellow, green and white
- 10mm diameter • 28mm length

- Products used in the manufacturing, shipping, rail and aviation industries
- LED light, miniature and marine bulbs also available
- 100-unit MOQ

### Yun Xin Tian Heng (Tianjin) International Trade Co. Ltd

Rm. 2105, Lijing Building, 53 Weidi Rd., Hexi, Tianjin 30000, China

Custom LED displays

## Over 1,000 product types for your selection

- We offer LED displays, light bars, lamps and more accepted by Samsung and LG
- Using imported ASM automated production lines and chipsets from Taiwan
- Daily capacity of 300,000 LED displays and 500,000 LED lamps; orders delivered in 2 weeks

7-segment and alphanumeric LED displays

Dot-matrix and arrow LED displays

Our R&D experts have over 10 years' experience in the OLED industry

1.63" AMOLED display module

1.54" OLED module

5" AMOLED display module

7" TFT-LCD module

3.5" TFT-LCD module

Various OLEDs in stock ensure shorter delivery times than other suppliers

Small- to medium-sized flat panel displays for electronic devices, medical equipment and other applications

OEM/ODM orders welcome

Electronic Components • December 2015 273

TFT/IPS LCD module

- Readable in sunlight
- Super wide viewing angle

### We provide a large selection of products and customization services

- Our engineers have ISO 9001:2008, ISO/TS 16949:2009 and Six Sigma training
- Custom samples ready in 1 week
- Management staff with an average of 10 years' experience

Anomalous FSTN display

Circular OLED display

Custom capacitive touch screen

- USB and I2C interfaces
- For Windows- or Android-based devices

Custom LCD with pins

1.44" TFT screen for smartwatches

OLED display

7-84" touch panel

- Supports zero-bezel SAW designs, projected capacitive technology, infrared and PIT
- Reinforced, dustproof, waterproof, vandal-proof and anti-glare types also available

# Providing touch panels, touch monitors and all-in-one computers

- Over 100 patents worldwide; customization services available
- Solutions for financial, industrial, transportation, medical, educational, gaming, retail, interactive display system and kiosk applications
- 14 years' experience

17-42" all-in-one PC, customizable sizes also available

- Built-in industrial host
- Supports Windows 2000/XP/7/8/10, Android, Linux and Mac OS

7-42" touch monitor

- Supports zero-bezel SAW designs, projected capacitive technology, infrared and PIT
- Reinforced, dustproof, waterproof, vandal-proof and anti-glare types also available

5" TFT-LCD module

- For Hanstar screens
- 480 x 800 resolution
- 500 cd/m² brightness
- 40-pin application for vehicles and security, industrial and medical equipment

# Utilizing advanced automated equipment for our TFT-LCD modules

- ISO 9001:2008-certified enterprise
- 20,000m² factory and 1,500 skilled staff
- Products with fast response speed, wide angle view and low power consumption

# BT, Sagemcom, Huawei, Philips and Siemens source our products

We have 6 invention patents and comply with Energy Star Level VI

Switching power adapter  
(UES18W3-SPA2)  
• 12V DC  
• 0.1-1.5A

ITE power supply (UEL20WZ-E1)  
• 18-48V DC • 0.42-0.83A

Switching PoE power adapters (PoE35-54A)  
• 48V DC • 0.65A

105W outdoor LED driver (UEL105-A1Z)  
• 27-142V DC • 0.70-2.77A

40W indoor LED driver (UEL040A-D1)  
• 25-150V DC • 0.28-1.1A

We started our operations in 1989 by focusing on power adapters. We are the preferred supplier of some of the industry's biggest names including BT, Sagemcom, Huawei, Philips, Siemens, Artemide, Lucent Technologies, Askey, Foxconn, Medel, Osram and others.

Our products all bear international quality marks, including cULus, cCSAus, TÜV-GS, CE, BEAB, C-Tick, PSE-JET, K-Mark, TLC, CCC, IRAM, CB, EMC and FCC. We can produce up to 6 million power adapters and 1 million LED drivers per month. For more information, contact us now.

# Rely on a one-stop manufacturer of USB 3.1 cable assemblies and adapters

USB 3.1 cable assemblies

Testing machines

Hot bar welding machine

Laser machine

High-frequency welding machine

Semi-automatic production machine

- Clients include Emerson, 3Com, Tyco, AOC and C2G
- 28 years' manufacturing experience
- A wide range of USB 3.1 Type-C cables and adapters
- 3 new items released monthly
- A mold workshop and 5 factories for cables, cable assemblies and connectors in mainland China and Taiwan
- OEM/ODM projects completed within 15 days
- Custom orders welcome

Contact our sales staff today.

ISO 9001:2008 ISO 14001:2004 CSA

# Offering SMD terminal blocks for various LED applications

SMD terminal blocks (ETBL40 Series)

- 9A (max.)
- 320V AC (max.)
- 18-24 AWG wire range
- 0.2-0.75mm<sup>2</sup> conductor size
- 4mm pitch
- 1-3 poles
- 3.8mm height

To ensure quality control, we design and manufacture every component in-house at our ISO 9001:2008- and ISO 14001:2004-certified factories in Taiwan and mainland China. Using these facilities, we can customize our products to fit your OEM/ODM specifications. Our multifunction US branch with a logistics warehouse provides prompt and flexible services to our clients from North America.

Our featured products have an easy handling feature making them ideal for use in the fields of LED lighting and industrial electronics. What's more, our ETBL40-series SMD terminal blocks feature low inserting force cage clamp, wire-release pushbutton and compact screwless design for time-saving assembly. To know more about our products, contact us today.

An ISO-9001 & 14001 Company

寻找像您一样看重产品品质的世界级电子元器件供应商？欢迎您和三星、LG、松下、夏普、东芝、三菱、三洋、Salcomp、Funai、Astec Industries、BYD、Truly Semiconductors、海尔、VTech及海信等公司一样，成为我们的贵宾客户！这些知名公司已意识到我们的20步监管程序价值所在，包括高温与低温控制、湿度控制，以及业内最严苛的测试之一——120小时产品寿命测试。

我们执行的品质标准包括ISO 9001:2008—、ISO/TS 16949:2009—、ISO 14001:2004—、OHSAS 18001:2007及IECQ HSPM QC 080000等。我们的办事处覆盖欧亚，可为您提供24小时不间断服务。欢迎即刻与我们联系，让我们32年的产业经验为您所用。

月产能包括：

二极管：  
.18 亿只DO、LL与LS  
.22亿只DO-213AA与DO-213AB

RFID：  
.3百万只高频/超高频打标机

V-chip电容：  
.3千万标准件，低ESR，85/105℃工作温度，5000小时测试寿命

玻封测试，印字和上带机

可靠的测试实验室

玻封铜针及铜钉组装机

# 力辉电机— 月产量300 万台， 世界500 强 信赖的马达供应商

- 超过200款电机可供选择
- 每年推出80多款新模型
- 厂房面积：25000平方米，总部面积：1200平方米
- 2800多名员工；6个研发团队

欢迎与我们合作。

# 专业生产通过UL 认证的M8 及M12 连接器，产品适用领域广泛

我们的产品包括：

- 电信连接器
- RJ插口
- 梯形连接器
- IDC连接器
- USB/迷你USB连接器
- USB/微型USB3.0连接器
- 防水连接器
- M12/M8圆形连接器
- 射频天线及微波电缆连接器
- 无线网络，WiMAX GPS，GSM，DVB-T，插入和室外天线
- 欧式插座
- 汽车配件
- 排针连接器
- 冲压及塑胶注塑部件
- 光磨加工零件

- 年销售额高达4500万美元，产品热销美国、欧洲和亚洲
- 台湾的研发团队发明的产品在美国和德国获得专利认证
- 我司在台湾地区和中国大陆有四家工厂
- 每家工厂月产能达3000万个
- 每家工厂都由台湾团队管理
- 所有组件都经过RoHS认证

欢迎各界朋友与我司联系合作。

# 尖端医疗美容设备制造，打造美容服务时尚品牌ODM&OEM专业厂商

立特克科技集团是一家拥有全球领先的消费类电子品牌和完善的医美电子设备与医美生物科技相结合的OEM&ODM高新技术企业。领先的家庭美容产品包括：便携式制氧机、超声波美容仪、射频美容仪等。厂内GMPC认证的十万级无尘车间，专用于化妆品的生物实验测试程序、精密萃取、无尘封装，给予整个化妆品研发、生产过程最大保障。美国食品药品监督管理局注册企业，确保品质！

其他优势包括：

- 15年的OEM/ODM经验
- 获得ISO 9001:2008、ISO 14001:2004 及 ISO 13485:2003认证

- 占地面积达40,000平方米的厂房内，拥有先进的无尘注塑车间、SMT车间、DIP车间、组装包装车间、喷漆车间、电镀车间、模具制作车间以及单色、双色丝印、移印、烫金车间等。
- 超过100位研发工程师组成的研发团队，为你提供服务支持
- 专利产品通过RoHS、CE、FCC及REACH认证
- 设在北京、香港、台湾、日本及新加坡等地的客服团队为您提供积极迅速的服务支持！

# 马达供应商

直流电机

深圳市力辉电机有限公司是一家生产交直流微电机的专业出口型企业，公司坐落于交通便利的深圳南山科技园，工厂位于深圳公明。目前共有2500多名员工，100多名具有高学历和丰富经验的研发、销售及管理人员。力辉电机自2001年成立以来，一直致力于微特电机的研发与生产，产品主要应用于家用电器、办公自动化设备、健身器材、医疗器械、汽车等电器产品的驱动装置。客户遍布全球。凭借出色的质量和一流的服务，力辉电机及其产品已在国内外市场赢得很高的声誉。

力辉电机坚持以“质量第一，服务至上”的原则，在生产过程中严格实施ISO9001：2008，ISO14001：2004及ISO/TS16949管理体系。公司现有3个工厂，总面积25000平米。同时力辉工业园（东莞凤岗，占地面积60亩）将在2014年投入使用。公司注重现代化设备的引进，拥有的全套生产设备确保了产品的高质量和高可靠性，凭借雄厚的技术实力和丰富的生产经验，公司现有18条总装线，月产量达到300万台。

力辉电机期待与您合作，同您分享智慧和经验。欢迎来电来函洽谈！

为全球的买家提供专业的服务

经过 22 年的不断发展壮大，我们已经成为行业内知名的供应商， Samsung、Asus、Dell、Mini Circuits、Foxconn、Huawei、ZTE、Funai、TCL、 Gionee、Shanghai Huaqin、Konka、Gree、 Great Wall、Hasee、BBK 和 Alpha Technology 等买家信任我们的产品品质从而达成长期合作关系。深圳、东莞、梅州三地设有工厂进行生产，同时在香港、上海和成都设有办事处，为您提供专业的服务！

生产实力雄厚

深圳生产基地：由双面、多层事业部和高频特种板、快板事业部组成。专业生产高精密双面、高频板及各种金属基板（铜基板、铝基板、铁基板、陶瓷基板等）、快样板等，月产能达 7 万平方米以上。  
东莞生产基地：主要生产高多层、HDI 电路板及柔性线路板（FPC），月产能达 15 万平米。

梅州生产基地：月产碳油板、银油灌孔板、手机电路板、上网本等 HDI 及高多层电路板等达 16 万平方米。

质量第一原则

我们拥有发明专利，产品通过 BSI、FPC 及 UL 等行业顶尖认证机构的检测，工厂通过 ISO 14001:2004、ISO 9001:2008 及 ISO/TS 16949:2009 认证。

## 20天出样

作为中国电磁零件的领军企业之一，信鸿磁业拥有超过29年生产研发经验。30多名研发成员中，一半以上有30年以上现场经验。研发人员紧贴客户需求，立足市场趋势巧妙开发新品，利用自主开模成型车间，可高效地生产定制产品：需开模的样品20天完成，不用开模的只需10天。

## 年产量达3亿件

信鸿磁业拥有5个工厂，均通过ISO 9001:2000体

系认证，可生产铁氧体磁芯、电感器、高频变压器、网络滤波器模组、永磁铁氧体等。年产量达3亿件以上，广泛用于个人电脑、电脑周边配件、汽车电子、电子消费类产品、通讯设备、测试设备、GPS设备、医疗器械和手机等电子产品。

## 24小时响应服务

20位客服代表24小时答复咨询，并提供高效的售后服务和技术支持。请访问我们在环球资源的网站，今天就答复您！

# 适用于各种应用

24W DC 线系列开关电源

- 输入：100-240V AC, 47-63Hz
- 工作温度：0 ~ 40°
- 短路和过电流保护
- 应用范围：音频设备、打印机、扫描仪、显示器等
- 重量：110g (参考重量)
- 输入输出：5V DC, 3.1A
- 工作湿度：10-90% RH
- UL, GS, SAA 和 BS 标志
- 尺寸：69.7\*44.4\*29.8 毫米

线性适配器

- 输入：120V, 220V, 230V 可选
- 输出：3~24V • 电流：0.1~1.67A
- 适用于家电、IT 设备、净水系统、照明、玩具等

开关电源

- 输入：100~240V
- 输出：3~24V DC, 0.5~48W
- 适用于 A/V 设备、玩具、IT 产品

输入：100-240V AC, 47-63Hz

- 输入输出：5-24V • 电流：0.1-4A

我们 16000 平方米工厂，拥有 800 名生产人员

医疗器械的 AC/DC 适配器

## 我们只需 90 天

- 概念化
- 原型
- 模具
- 安全认证
- 批量生产
- 物流

## 产品应用：

- 电子设备
- 医疗设备
- 电信设备
- 工业动力设备
- LED 驱动器

# 电源转换解决方案

## 从概念到成品只需 90 天

### 集成制造工艺

始创于 2001 年，我司是公认的行业领导者之一，根据您的电源需求提供广泛的选择。在我们国际管理团队领导下，每年我们处理数百个项目，尤其是来自北美和欧洲的买家。我司采用垂直整合制造工艺，日产量高达 50 万个。若您今天就下订单，我们承诺 14 天即可出货。

### 内部化学测试设备和 TÜV 认证的 EMC 实验室

利用我们内部材料测试设施和 EMC 实验室，以及一整套先进的机器设备，我们严格检测每个流程。我们的测试范围包括：电气、耐压、振动、盐雾、弯曲度、插拔、高低温、浪涌、燃烧和跌落测试。另外，您还可信任我们以下方面：

- 内部 TÜV 认证的 EMC 实验室
- 内部多环芳烃和符合 REACH 规定的化学测试实验室
- 通过 ISO 9001:2000、ISO 14001:2004 和 IECQ HSPM QC 080000 管理认证
- 符合 CEC V 级产品规定和通过 VDE 认证

### 即时跟踪您的订单

我们是专业的制造服务商，若有供应链管理服务，同时还提供 VMI 服务。我们的客户能随时掌握自己的电源供应器、LED 驱动器和适配器的分布及库存情况。

现在就与我们的销售市场部副总刘先生联系吧。  
电话：（86-755）2716 0058

#### LED 驱动器

- 输入：100-240V，50/60Hz 的，0.8A
- 输出：36V，0-1.7A
- 各种型号和规格供选择

3D 打印机电源，  
45W/65W 可用类型

12W 开关电源用于机顶盒和各类移动设备，符合能效等级 VI 标准

36W 开架式电源

**Ktec** Intelligent Power

- HBU58

60W 开放式医用电源

  - 操作电压: 80-275V AC, 47 to 63Hz
  - 单输出
  - 尺寸: 1.5×4×1.04”
  - 直流输出电压: 5-55v
  - 2 MOPP输入到输出
  - Class II
  - 过压和过载保护
  - 工作温度: - 10至70°C
  - IEC 60601-1:2005 + A1:2012 和IEC 60601-1-2:2014认证
  - 三年保修

# 我们的新产品符合IEC标准

工厂通过ISO 13485:2003认证

### 产品符合最新IEC 标准

您找到一家可靠的供应商了吗? 星博电子为您提供稳定安全的医疗电源，符合IEC 60601-1:2005 + A1:2012及 IEC 60601-1-2:2014认证标准。在ISO 13485:2003质量体系指导下生产的电源可靠，可帮助您有效节约成本。

### 采用先进的测试设备

所有产品均通过了烧机测试和自动测试设备（ATE）检查,并提供3年质保。欢迎海内外客商与我司进行OEM/ODM项目合作，星博电子为您提供全套优质的售后服务。

# 专业生产环保节能电池

使用寿命更长、  
更环保

力佳电源生产的精选锂纽扣电池可完美匹配各种设备，包括 3D 眼镜和遥控器，不单高效、节能、耐用，同时对环境的污染更少。如 CR2032 电池拥有 245 毫安大容量，比日本产的同类电池容量高 5% 以上。

力佳电源是日本东芝电池的授权代理商，工厂通过 ISO 9001:2008 和 ISO 14001:2004 认证，占地 9,000 平米，月产量 2500 万件。产品均通过 UL 1642、UN38.3、CE、JISC8512、IEC、RoHS、2006/66/EC、REACH 认证。

力佳电源采用美国、瑞士和台湾等地进口的先进检测设备，保证最优质的产品。欢迎咨询相关产品信息。

# 紧贴客户需求，专业提供 整套电源解决方案

所提供的医疗电源符合IEC60601-1 第三版标准

随着全球能源使用量的增加，生产更有效且对环境污染更少的产品势在必行。我们提供的医疗电源产品完全符合IEC 60601-1 第三版的要求，产品有插墙式、开关式等供选择，输出功率4~650瓦不等。

我们也供应DC/DC转换器，有开框式、封闭式、DIN导轨式、IT级开关电源可供选择。所有产品生产均通过ISO 9001:2008国际质量管理体系认证。我们目前生产的数千种产品也附带多重标准认证，确保质量过关。不管订单大小，查询及咨询24小时内给予答复。今天就联系我们，享受专业周到的服务！

我们的主要产品线：

- 4-650W医疗电源
- 5-3000W IT和工业用电源供应器
- 10-1000W电池充电器
- 1-1000W的DC/DC转换器

医疗电源适配器

壁挂适配器

开架式电源

电池充电器

国际通用互换适配器，符合UL和EN60950-1标准

# 拥有43年经验的 电池卡扣专家

为了增加电池卡扣强度，我们的产品采用端子压著机，而不是传统的焊接方式，同时安全电池扣和底座具有额外的极性和绝缘保护。我们的产品所具备的这些增值属性是传统机型无可比拟的，也是43年以来一直吸引跨国客户返单的重要原因。

这些客户包括顶级电子产品制造商，如Mouser和IR。我们紧贴客户需求，在生产过程中采用瑞士进口的Komax 40自动化切割、剥皮、压接，这种设备可同时压接端子和切割导线，确保每个组件精密安全的连接。

我们每月产量高达6百万件，即使在定单旺季，仍能确保25天内完成您的订单。

现在电话或邮件联系我们，将获得通过RoHS认证的持有卡免费样品。

# 我司产品符合ErP二级和CEC六级标准

我司产品符合ErP二级和CEC六级标准，这意味着更容易打入欧洲和北美市场。为了无障碍进口，请选择我司优质的AC/DC和AC/AC适配器、线性适配器、LED驱动器、变压器和开关电源。5000多款可供选择，承接定制项目。

领先的电子公司已采购我们的产品多年。我们的工厂获得ISO9001：2008和ISO 14001：2004认证并且配备了模具和成型系统、自动插件机、贴片机及塑料注塑机，以确保快速完成您的定制样品。我们从欧盟和美国购买关键组件，确保质量。欢迎来邮咨询。

**专业的电源制造商**  
 成立于2008年的中山市景荣电子有限公司是一家专业的开关电源、线性电源、LED电源及充电器的工厂和出口厂商。所有产品通过GS、UL、cUL、PSE、SAA、CE、CCC、KC、BS、ETL、CB、EMC 及 FCC 认证。我司拥有3-120W开关电源大约30000个机种，3-360W LED 电源大约200个机种。产品全部按照全球国际化标准IEC/EN 60950、IEC/EN 60065、IEC/EN60335、IEC/EN61558、UL1310及 IEC/EN61347等设计并生产。

**每月产量达60万台**  
 我司在中山设有工厂，占地约20,000平米，包括10条生产线，有500个熟练的员工，月产值60万台开关电源和LED电源。同时我们也拥有强大的设计研发团队负责新产品研发和设计，专设品管部门负责产品品质检验和控制。

- 提供及时、专业、有效的服务**
- 符合ERP和CEC 6级要求
  - 产品符合7个国家标准6/12/24/36/65W插墙式及台式要求，并通过CB 认证
  - 拥有超过30年经验的研发工程师
  - 超过10年的电源解决方案经验
  - 日产量达50,000件
  - 样品交货期7个工作日
  - 提供定制及OEM服务

12V,7Ah UPS 电池

## 高品质的铅酸蓄电池制造者始于1993年

- 三个工厂总面积达到80万平方米
- 每日可生产8万个电池及其10万组极板
- 中国空军后期，国家电网及南方电网指定供应商

欢迎OEM/ODM订单

12V, 20Ah铅酸蓄电池

我们的产品

## 月产能高达300万个适配器和充电器，均经过CEC认证

- 34年成熟的行业经验，赢得众多买家青睐
- 专业提供适配器及充电器；也提供CEC VI等级及Tier 2级认证模块
- 内部制模和注塑成型服务，严格控制质量
- 拥有80名质检员和80名研发人员
- 创新设计适用于电子应用
- 工厂符合7S管理标准

欢迎OEM/ODM订单！

可互换的交流电源适配器

# 欢迎采购符合CEC VI级认证的开关电源适配器

- 富士高实业控股有限公司的子公司，在香港交易所上市
- 提供开关电源适配器、LED驱动器、USB墙充及车载充电器及定制电源解决方案
- 22年丰富经验的供应商，在东莞拥有52,000平米厂房；MFi特许生产商
- 400名技术人员每月生产40万台符合CEC VI 认证的产品

**18W系列开关电源适配器**

- 100-240V AC, 50/60Hz • 5-28V DC
- 18VA • 高达2,500mA
- 电源输出线插头
- 符合 EN 61558, EN 60950 及 EN 60065标准

**USB 墙充**

- 设计时尚 • 高效率
- 5V DC, 1A 单口USB及提供3A双口USB模式

**6W系列开关电源适配器**

- 100-240V AC, 50/60Hz • 4-28V DC
- 6VA • 高达1,500mA
- 内置USB插座；电源输出线插头
- 符合 EN 61558 及 EN 60950标准

# 提供整套无线局域网天线及配件

产品范围：  
 •无线局域网天线  
 •同轴电缆

崐欸公司在美国和台湾设立办事处专注于产品设计，中国大陆开办工厂负责产品制造。为了与全球客户保持紧密联系，我们在新加坡和韩国也开设了销售办事处。欢迎从我司采购RJ45变压器插孔模块和其他产品。灵活的最小起订量，一定能获得您的青睐。

崐欸公司大大缩短了产品开发时间，以及提供6个月的质量承诺和更灵活的产品配置。所有产品均通过中国大陆工厂制造，大大节约生产成本。工厂均通过ISO 9001:2000和ISO 14001:2004认证。我司始终坚持产品缺陷率仅0.001%，返单率达到100%。

崐欸公司通过与本地供应商的长期合作，成为供应中心的首选，因此，我司能更快更经济地采购到符合RoHS标准的原材料，确保产品价格具有竞争力，并能提供最快的交货期。我司的业务范围正扩大到南美和欧洲，因此全球买家可以享受同样的好处。两周内出样，欢迎来电咨询。

定制的同轴电缆

射频电缆，1.37, 1.13 及 0.81mm可选

# 连续30年，继电器行业领导者

想寻找专业的合作伙伴吗？请不要犹豫，与我们联系吧！30多年丰富的生产经验，70多项产品专利，80多个产品种类，10000多种产品规格将满足您的不同需求。我们的产品主要包括通信继电器、通用继电器、汽车继电器及磁保持继电器等。

为满足您对产品的质量要求，我们层层把控质检环节。获得了ISO 9001:2008-，ISO 14001:2004- 及ISO/TS 16949:2009认证的工厂自主生产产品，且产品通过了UL、cUL、VDE、TüV及CQC的认证,保证把产品PPM降到最低。

伴随16年的发展壮大，中国电子元件行业协会授予我们“中国电子元件百强企业”和“国家重点高新技术企业”称号。年产量1500万只继电器，70%产品出口到世界80多个国家和地区。

请立即联系我们，我们将会是您可靠的合作伙伴。

多种继电器，超过10,000种产品规格可选

# 提供粘结钕铁硼磁粉及制品 的少数供应商之一

- 超过22年的生产经验
- 专业生产粘结钕铁硼磁粉
- 研发工程师提供全面的定制服务
- 可提供铁氧体磁、钕铁硼磁、橡胶磁、钐钴磁和铝镍钴磁
- 充足的库存产品可即时出货

欢迎咨询，了解更多信息。

生产线

### 提供定制开关、印刷和激光打标服务

新产品

多功能编码器开关

- 台湾本土的开关制造商
- 成立于1975年
- 从产品的设计、模具制造、注塑到装配全部内部完成

主要产品:

- 按钮开关
- 照明的触摸开关
- 旋转开关
- 导航开关模块
- 摇杆开关

多功能测试钳

通过连接万用表, 变成SMD探头夹

带蜂鸣器的新功能导电

PCB线路导电试验

贴片或小部件

LED发光测试

保险丝断开、短路检查

适用于电池组的小型热保护器 2.1×5×13.2 毫米

玻璃封装的热保护器，适用于湿热及高压的恶劣环境

过热、过电流保护器，适用于汽车直流电机、雨刷电机、车窗玻璃升降电机、座椅调节电机等

## 15年专业制造商-拥有全自动生产和测试设备

电子烟压力传感器

- 9 台自动测试仪，4 台自动组装机，17 台自动封边机。
- 从日本和台湾采购原材料
- 出口美国、欧盟、巴西和俄罗斯

驻极体电容式麦克风

# 100%台湾制造的电容器厂商

250-850V电压和10-500  $\mu$ F电容的电容器，适用于军事和航空航天工业

- 31年专业生产电容器
- 适合于贯通式和高压等应用
- 照明和通讯应用的理想零部件之一
- 可提供订制服务，7天内出样
- 通过ISO 9001:2008认证，配有自动先进器械
- 所有产品获得UL, VDE, ENEC, CE, KC, CQC等认证
- 美国、英国、德国、法国、荷兰、日本、香港、泰国均设有代理商

诚邀海内外客商前来洽谈合作。

# 您的半导体整流器件专家

拥有 50 年的制造经验

- 三星、比亚迪、欧姆龙、明纬、航嘉均选择 JGD
- 每年整流器件的生产量超过 40 亿只
- 取得了 UL 产品认证
- 集设计、研发、生产、销售及服务于一体
- 明星产品：0.5A~50A 全系列桥式整流器、肖特基整流器及沟槽式肖特基整流器
- 产品广泛应用于汽车电子，绿色能源，LED 照明，工业控制，开关电源，消费类电子等领域。

请马上与我们联系，期待与您的携手！

# 从 2001 年开始 生产多种电阻

- 拥有符合 ISO 9001:2008- 和 ISO 14001:2004- 认证标准的生产线
- 产品通过了 CE、UL、CQC、RoHS 及 REACH 认证
- 低温度系数的高精度电阻
- 与清华大学及哈尔滨工业大学建立合作关系，共同研发
- 发货及时

产品范围包括：

- 陶瓷电阻 · 电流感测电阻
- 铝外壳电阻 · 薄膜电阻
- 熔断电阻 · 高压电阻
- 大功率电阻 · 高值电阻
- 陶瓷加热器 · 噪声抑制电阻
- 无电感电阻 · 精密电阻器
- 脉冲电阻 · 厚膜电阻
- 线绕电阻

雨升公司专注于提供SMD、DIP以及各种电子元件给世界各地买家，也以套件形式提供CTM各种有源和无源器件。雨升公司创立于1987年，是一家拥有几十年行业经验的电子元件供应商。现有库存价值近1千万美金的产品，可立即发货。

雨升公司为众多国际知名品牌提供产品，包括Fujisoku / Copal、Renesas、NEC、Mitsubishi、NXP、Freescall、TI、Samsung、OKI、Toshiba、vago、NS、ST、ON、IR、LTC、Panasonic、Intersil、Atmel、Murata、Maxim、Dallas、ROHM、Microchip、Holtek、AVX、QTC、Vishay、Spansion、JRC、Fairchild、Epcos、Kemet、JAE、Nicera、Toko等。

雨升公司专业生产贴片元件和几乎所有类型的射频器件，包括二极管、晶体管、集成电路、模块等。产品被广泛应用于无线、汽车、家居安全等市场。现在就联系雨升公司了解更多信息。

- 钽电容（径向/贴片）
- 微调电容器、双电荷层电容器
- 微控制器/微处理器（MCU/ MPU）
- RF功率模块（JFET/ MOSFET）
- 宽选择晶体管（To-92, To-220, To-3, 功率射频）
- 二极管（Zener, tuning, 选择范围广）
- 开关、传感器、电位器
- 超级电容器和大型铝电解电容
- 滤波器、谐振器、压敏电阻、石英晶体、振荡器，表面波滤波器等
- 硅控整流器, 单结晶体管, 三极交流开关、晶闸管等
- 光学、非线性、计算机、通信、语音和控制IC
- 片式陶瓷电容器和片式电阻器（0402, 0603, 0805, 1206, ...）
- 贴片线圈、积层式芯片磁珠（EMI抑制器）、电感器
- SRAM, DRAM, EPROM, EEPROM 与 FLASH
- 正温度系数热敏电阻(PTC), 负温度系数热敏电阻 (NTC), 电阻网络，电容器网络(RC网络)

电抗器

- 成立于1998年
- 工厂通过ISO 9001:2008认证，产品符合UL 认证标准
- 优势产品还包括：电感线圈、高频变压器和大功率单相变压器
- 工厂占地5,000平方米
- 月产量达120万件
- 自有研发团队
- 每月推出20款新产品

## 下一代趋势解密

### 智能电表芯片需求持续上升

调研公司IHS预测，全球智能电表市场将从2015年的1亿3200万只增加到2019年的1亿5000万只，复合年均增长率为3.2%，这将为芯片产业提供显著的增长机会。

2014年，用于水、天然气和电表的半导体全球营收达到12亿美元，较前一年增加11%，五年间的复合年均增长率为8%。IHS估计，用于双向电表的芯片平均成本约为11美元。约有三

分之二的半导体营收来自微处理器和模拟器件。

出乎意料的是，尽管产量和竞争会持续增加，预计平均价格将不降反升。

这是因为该行业将从低成本的8位微控制器过渡到更贵的32位微控制器，需要更多内存以及具有增强的安全功能的SoC组件。□

[阅读全文，请访问EETimes。](#)

### 3D NAND杀入存储阵列应用

闪存公司Kaminario看来将成为第一家采用3D NAND的全闪存阵列（即AFA）的供应商。该公司推出了K2版5.5全闪存主存储阵列。

公司首席执行官Dani Golan在接受EETimes电话采访时表示，该产品采用3D LTC磁盘，旨在将全闪存存储的成本降低至每GB一美元以内。这仅为该公司2014年5月推出的前代阵列产品价格的一半。

通过支持3D TLC固态硬盘，K2的用户能把此阵列的有效容量倍增至每K-block超过360TB，并将K2阵列在单个机架单元内扩展至数PB级别。

Kaminario将继续为其产品提供七年质保期，包括3D TLC 固态硬盘。

通过内联压缩和重复数据删除，负载均衡写入，RAID优化以及针对大型数据块设计的闪存友好型数据布局技术等功能来确保产品较长的使用寿命。这款新产品还具备基于阵列的原生异步复制功能。

Dolan表示，目前客户已经能接受采用闪存的存储阵列，比起技术规格或采用哪种NAND，他们对AFA如何满足他们的需求更有兴趣。“他们关注的是性能。” □

### 美光看好多变的3D NAND市场

尽管金融市场对公司未来的前景不太乐观，美光公司高管仍然预测公司未来将迎来巨大机会。

在公司的2015夏季分析报告会上，美光阐述了目前市场状态及其发展方向。公司高管重复了该公司春季报告和最新季度报告内的结论。

美光首席执行官D.Mark Duran承认PC市场出货量的下降影响了公司的DRAM业务，他说：“这确实使我们一些成员感到惊讶，但还未进入灾难性

周期。”

尽管PC行业增长放缓，美光预计其DRAM业务将在2015年和2016年分别增长25%和24%。

该公司预计其最近对制造和技术效率的投资将于2016年开始获得回报。Duran说：“我们对这些周期性的投资感觉很不错。我们相信未来将持续增长。” □

20 层 PCB 板

16 层 PCB 板

34 层 PCB 板，盲孔

34 层 PCB 板，  
盲孔

ZETA 认证的 PCB 板，阻焊  
层开口 100um

明阳电路成立于 2001 年，致力于提供世界一流的服务，产品广泛应用于汽车、通信、计算机、工业控制、医疗、电力和能源 PCBs 等领域。拥有强大的生产能力和产品开发实力，赢得众多国际买家青睐，我们广泛的产品和功能包括：

- 1-34 层硬板，2-14 层软板及软硬结合板
- 盲埋孔多次压合工艺
- HDI 板、微小盲孔电镀填平工艺
- 导电或非导电物料填塞 VIP 设计
- 厚铜板，UL 认证至 6OZ
- 特殊材料，及多种材料混压工艺
- 散热金属基板
- Zeta® 认证的 PCB 制造商
- 厚板或背板（可包括背钻）

明阳电路高度重视质量检控和生产效率，因此能为全球客户提供高度可靠的解决方案。采用先进的生产设备如激光钻机、LDIS、VCPS 等，所有产品符合严格的 UL 和 IPC 标准。请访问明阳电路的在线陈列室，或致电获取更多的信息。

## 下一代趋势解密

### 热界面材料市场升温

2015年热界面材料市场份额预测

电子技术的进步正在改变我们生活的方方面面。消费者需求更快, 更轻, 更薄并且可靠的产品。这就意味着电子设备的密度和功耗更高, 尤其是较小的可穿戴设备。但这导致来自组件更多的热量堆积, 从而损害和降低电子产品性能。因此, 这个问题为能够更好地管理散热的材料 - 即热界面材料 (TIM) 带来一个巨大的机会, 其能够让电子设备运行速度更快。

根据DTechEx Research在题为“热

界面材料2015-2025: 现状, 机遇和市场预测”的研究报告中指出, 2015年热界面材料市场将达到13亿美元, 到2025年将增加至30亿美元。

#### 材料选择

当热管理开始成为一个问题的时候, 所能提供的材料的选择是有限的。导热硅脂用来填充功率器件和散热片之间的空隙。硅脂的制造是混乱且不精确的, 因此尽管这种材料仍然在工业计算和消费电子领域流行, 但其市场份额正在下降。

随着时间的推移, 由硅橡胶和导电填料制成的导热垫片开始崭露头脚。受到来自夹子或者螺丝的装配压力时, 这些垫片会填充配件间的空气间隙, 随着材料的进一步流动, 其散热性能不断提升。到2025年这种垫片将是使用最广泛的热界面材料。□

### RRAM借助石墨烯打破记录

氧化钽的层叠结构, 多层石墨烯和铂用于新型RRAM。

置肖特基触点的材料堆栈, 取代了目前大部份高效率设计所需的二极管。Tour表示它支持超低漏电流 (潜行电流), 可实现高达162Gb (20GB) 的交叉阵列。

“我们团队的超高密度非易失性电阻式存储器采用一种可在室温下制造的3D材料,” 教授Tour告诉EETimes。 “每个器件都表现出极佳的无选择器内存开关比, 在3.6V时高于10。”

Tour的团队多年来一直致力于RRAM的研究, 其之前的研究成果已经授权制造。Tour表示, 之前的RRAM设计采用二氧化硅作为活性材料, 已经授权给位于特拉维夫的WeebitNano Ltd。□

阅读全文, 请访问EETimes。

通过结合新颖的架构, 室温处理以及高密度电阻材料堆栈, 莱斯大学教授James Tour制作出一种3D堆栈的RRAM, 可在速度和每交叉位 (bits-per-crossbar) 方面超越竞争设计。其关键在于采用了一种具有每位内

# 知名买家所青睐的产品

**产品受舒尔和松下青睐**  
 国际知名买家如舒尔、松下均从我司采购零部件和配件。我司产品线宽阔，生产力强，加上高素质的研发队伍，可以轻松满足您对于鹅颈灯、电缆组件、连接器、适配器的OEM/ODM生产组装需求。工厂每月可产1百万只配件，最小订单量从300起，只要您有这方面的需求，无论订单大小，欢迎与我们洽谈。

**产品符合国际标准**  
 我司引进欧美和日本先进技术，工厂也获得法国BV认证，质检流程严格按照军工（MIL-STD-202E）标准执行。另外，我们也能提供两年到三年保修期限，质量保证无后顾之忧。

3.5mm SMD立体声插孔(TSH-565D)

3.5mm SMD立体声插孔(TSH-598D)

- 供应直流电源插座和立体声插座，用于智能手机、平板电脑、医疗设备及各种电子设备
- 采用寿命测试仪、电感耦合等离子体发射光谱仪(ICP-OES)等先进检测设备
- 从美国、台湾和日本引进高品质材料
- 所有产品符合RoHS标准
- 自1978年以来，专业从事制造高品质电子产品插座

欢迎来电咨询，了解更多详情。

# 20 多年专注生产液晶显示模组和面板

## 承接 CTP 和全叠片 TFT 液晶显示模组定制订单

TFT 液晶触控面板

带触控面板的显示模块

单片 QVGA

8 色 TFT 液晶显示模块

VA 模块化产品

320 240 单一 TFT 液晶显示模块

工厂

新工厂 51,000 平米

- 工厂面积 150,000 平米，51,000 平米 COG 和 CTP 设施
- TN、HTN、STN、FSTN、FFSTN、ASTN、ESTN、VA、FS、bi-stable、COB、COG、SMT、TAB 等类型可供选择
- 85% 的产品出口美国、欧洲、日本和韩国
- 与西门子、LG、三星、夏普、佳能等公司长期合作
- 产品应用于医疗设备、办公自动化系统、通讯产品、家用电器和工业仪表
- 50 多名研发专家处理 OEM/ODM 项目

# 你找对供应商了吗？

他们是否具备您所需产品的生产经验？

**不仅相识** — 通过环球资源网站、印刷杂志、电子杂志、展会，以及买家专场采购会找到适合你的供应商。

你同样需要面对面接触这些供应商，亲自感受他们的产品，眼见为实。

**更能相见** — 环球资源展全年举办超过 40 场。在香港、迈阿密、圣保罗、新德里以及约翰内斯堡的展会现场，面对面会晤适合你的供应商。

了解详情，把握采购先机，请访问：  
[www.globalsources.com/SITE/BUYER/MAIN.HTM](http://www.globalsources.com/SITE/BUYER/MAIN.HTM)

# 提供高质量的电容式触摸屏及开关，适用于电子设备及家用电器

## 服务于全球知名企业

为什么我们能成为Honeywell、Panasonic和Trimble Navigation等世界知名企业所青睐的供应商？自1978年以来，我们已高效地制造了一系列电子器件，如下面展示的产品

## 采用模流系统

我们在中国大陆的工厂，已通过ISO 14001:2004和ISO/TS 16949国际认证，厂区面积达90,000平方米。该厂能提供模内装饰、丝网印刷、喷涂等服务。我们采用模流系统以确保生产更高效。我们现有超过1000名工人，包括30多名技术纯熟的工程师和60多名塑料、橡胶制模专家，可以高效处理客户订单。

## 台湾研发团队支持

为了进一步提高产品的质量度和生产效率，我们提供来自台湾的研发服务和香港的后勤保障。欲了解我们完整的产品线，请登录环球资源网站查询多泰实业股份有限公司。

适用于蓝牙耳机

适用于智能照明开关

适用于电磁炉

触摸屏面板

适用于手机

适用于血压计

适用于厨房抽油烟机

适用于触摸安防系统

适用于智能锁

Global Sources Verified Supplier

**RoHS ISO 9001:2000**

7-84英寸触控面板

- 支持技术：传统声波、纯平声波、投射式电容、传统红外及投射式红外
- 坚固耐用，支持防尘、防水、防暴及抗眩光等定制化设计

### 世界领先的触摸屏、触摸显示器及触摸一体机提供商

- 获得全球100多项专利；提供定制服务
- 提供金融、工业、交通运输，医疗、教育、游戏、零售、互动展示系统及报刊亭等应用解决方案
- 14年触摸解决方案经验

17-42英寸一体机，支持定制化服务

- 内置工业主机
- 支持 Windows 2000/XP/7/8/10, Android, Linux 及 Mac OS操作系统

7-42英寸触摸显示器

- 支持技术：传统声波、纯平声波、投射式电容、传统红外及投射式红外等支持防尘、防水、防暴及抗眩光等定制化设计

5 寸 TFT 液晶模块

- Hanstar 定制屏
- 分辨率达 480 x 800
- 亮度达 500 cd/m2
- 40 针应用于车辆及安防，工业及医疗设备

### 先进的全动化设备 专业生产 TFT-LCD 模组

- 通过 ISO 9001:2008 质量体系认证
- 2 万平方米工厂及 1,500 名员工
- 产品具有响应速度快、视角宽、功耗低等优点

# BT、Sagemcom、华为、飞利浦、西门子是我们的合作伙伴

## 拥有 6 项发明专利，符合第六级能效标准

电源适配器  
(UES18W3-SPAZ)  
• 12V DC • 0.1-1.5A

通信类电源 (UEL20WZ-E1)  
• 18-48V DC • 0.42-0.83A

PoE 开关电源适配器 (PoE35-54A)  
• 48V DC • 0.65A

105W 户外 LED 电源 (UEL105-A1Z)  
• 27-142V DC • 0.70-2.77A

40W 室内 LED 电源 (UEL040A-D1)  
• 25-150V DC • 0.28-1.1A

公司创立于 1989 年，主营电源适配器。我司是众多行业巨头的首选供应商，如 BT、Sagemcom、华为、飞利浦、西门子、Artemide、朗讯科技、Askey、富士康、Medel、欧司朗等。

我们的产品都获得了国际质量认证，包括 UL、CSA、TUV-GS、CE、BEAB、C-TICK、PSE-JET、K-MARK、TLC、CCC、IRAM、CB、EMC 和 FCC。月产能高达 600 万件电源适配器和 100 万件 LED 电源。欲知更多信息，请与我们联系。

# USB3.1 电缆及适配器一站式供应商

USB 3.1 电缆组件

测试机

激光机

热压焊接机

高频焊接机

半自动生产设备

- 知名合作买家包括：Emerson、3Com、Tyco、AOC 及 C2G
- 28 年的生产经验
- 提供一系列的 USB3.1 电缆及适配器
- 每月推出 3 款新产品
- 在中国大陆和台湾共有 5 个工厂及一个模具工作间，主要生产电缆、电缆配件及连接器
- OEM/ODM 订单 15 天内完成
- 欢迎定制化订单

NEW

# 适用于各类LED应用的SMD接线端子

- SMD接线端子(ETBL40 系列)
- 9A (最大)
  - 320V 交流 (最大)
  - AWG线范围18-24
  - 导体的尺寸0.2-0.75mm<sup>2</sup>
  - 间距4mm
  - 1-3 极
  - 高度3.8mm

为了满足客户对品质、价格、交期的需求，我们国内及台湾的工厂自主研发制造每一个零部件，工厂通过了ISO 9001和ISO 14001认证。我们可以根据您的需求来定制产品,更好地提供OEM/ODM服务。美国的分公司也能更好在服务您在北美的客户。

我们的主要产品有一个简单处理功能，能令它们更完美地应用于LED照明和工业电子领域。另外，ETBL40系列贴片接线端子采用冲压及后续嵌入成型技术，电线释放按钮及紧凑的无螺丝设计等省时的装置。欢迎联系我们，了解更多产品信息！
