 Global Sources supplier rankings

 ★★★★★

 Suppliers are ranked using a 6-star ranking system. Companies with a higher star ranking provide more business information and verification reports on their Global Sources online homepages. Suppliers rated 5 or 6 stars have a Credit Check report from First Advantage or Sino-Trust and a Supplier Capability Assessment report provided by Bureau Veritas online. The rankings are correct at the time of publication and may be subject to change.

Finishes, trims complement ethnic metal jewelry designs

Polished or antiqued, metal pieces add accents from other materials to achieve folksy combinations of colors and textures.

Ethnic jewelry pieces from India use base materials, including brass, silver and iron, with plating options such as silver and gold.

Earrings, rings and necklaces, offered individually or in sets, are enhanced with texture effects, which can be polished or made to look old with antique finishes.

A number have colorful embellishments such as stones and beads made of the same base metal, acrylic or thread. Kashmiri lac stones, turquoise and coral are employed to complete the ethnic look.

Necklaces have chains or cords. Makers use similarly plated metal as the pendant, or silk thread, with the latter handwoven in some models.

The products in this gallery have been handpicked for representing ethnic metal jewelry in India.

Nickel-free iron, polished gold finish

Recycled materials adopted in handmade paper gift bags

Cotton paper is a popular choice, ranging in weight from 140 to 250gsm. Options extend to patterns, colors and sizes.

Suppliers of handmade paper gift bags in India emphasize the use of materials recycled mostly from cotton.

This practice enables them to offer various designs that are sturdy enough as alternatives to those based on plastic but have no negative impact on the environment.

All products are gusseted for increased durability and storage.

To achieve a wide variety of designs different printing methods are employed, including digital and silk-screening.

Some companies use glitter ink to add sparkle to prints or turn to flocking for a textured feel and look.

The gift bags have ribbon or rope handles made of satin, cotton or a combination of cotton and satin for extra color and style.
